### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Carbimazole Formulation

Other means of identification : Vidalta 10 (A010622)  
Vidalta 15 (A011752)  
VIDALTA 15 MG TABLETS FOR CATS (66165)  
VIDALTA 10 MG TABLETS FOR CATS (66158)

#### Manufacturer or supplier's details

Company : MSD

Address : No. 485 Jing Tai Road  
Pu Tuo District - Shanghai - China 200331

Telephone : +1-908-740-4000

Emergency telephone number : 86-571-87268110

E-mail address : EHSDATASTEWARD@msd.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Veterinary product

Restrictions on use : Not applicable

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

**Appearance** : tablet, powder

**Colour** : pink

**Odour** : No data available

May damage fertility or the unborn child. May cause damage to organs through prolonged or repeated exposure. Toxic to aquatic life with long lasting effects.

#### GHS Classification

Reproductive toxicity : Category 1A

Specific target organ toxicity - repeated exposure : Category 2

Short-term (acute) aquatic hazard : Category 2

Long-term (chronic) aquatic hazard : Category 2

### Physical and chemical hazards

Not classified based on available information.

### Health hazards

May damage fertility or the unborn child. May cause damage to organs through prolonged or repeated exposure.

### Environmental hazards

Toxic to aquatic life. Toxic to aquatic life with long lasting effects.

### Other hazards which do not result in classification

Dust contact with the eyes can lead to mechanical irritation.  
Contact with dust can cause mechanical irritation or drying of the skin.  
May form explosive dust-air mixture during processing, handling or other means.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

### Components

### 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                                                                                                |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : In the case of accident or if you feel unwell, seek medical advice immediately.<br>When symptoms persist or in all cases of doubt seek medical advice.                                                                                                       |
| If inhaled                                                  | : If inhaled, remove to fresh air.<br>Get medical attention.                                                                                                                                                                                                   |
| In case of skin contact                                     | : In case of contact, immediately flush skin with soap and plenty of water.<br>Remove contaminated clothing and shoes.<br>Get medical attention.<br>Wash clothing before reuse.<br>Thoroughly clean shoes before reuse.                                        |
| In case of eye contact                                      | : If in eyes, rinse well with water.<br>Get medical attention if irritation develops and persists.                                                                                                                                                             |
| If swallowed                                                | : If swallowed, DO NOT induce vomiting.<br>Get medical attention.<br>Rinse mouth thoroughly with water.                                                                                                                                                        |
| Most important symptoms and effects, both acute and delayed | : Contact with dust can cause mechanical irritation or drying of the skin.<br>Dust contact with the eyes can lead to mechanical irritation.<br>May damage fertility or the unborn child.<br>May cause damage to organs through prolonged or repeated exposure. |
| Protection of first-aiders                                  | : First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).                                                                                  |
| Notes to physician                                          | : Treat symptomatically and supportively.                                                                                                                                                                                                                      |

### 5. FIREFIGHTING MEASURES

|                                       |                                                                                                                                                                                                                                 |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media          | : Water spray<br>Alcohol-resistant foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry chemical                                                                                                                                    |
| Unsuitable extinguishing media        | : None known.                                                                                                                                                                                                                   |
| Specific hazards during fire-fighting | : Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.<br>Exposure to combustion products may be a hazard to health. |

| Personal precautions, protective equipment and emergency procedures | : Use personal protective equipment.<br>Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Environmental precautions                                           | : Avoid release to the environment.<br>Prevent further leakage or spillage if safe to do so.<br>Retain and dispose of contaminated wash water.<br>Local authorities should be advised if significant spillages cannot be contained.                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Methods and materials for containment and cleaning up               | : Sweep up or vacuum up spillage and collect in suitable container for disposal.<br>Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).<br>Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.<br>Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.<br>Sections 13 and 15 of this SDS provide information regarding certain local or national requirements. |

### 7. HANDLING AND STORAGE

#### Handling

|                         |                                                                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Technical measures      | : Static electricity may accumulate and ignite suspended dust causing an explosion.<br>Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. |
| Local/Total ventilation | : If sufficient ventilation is unavailable, use with local exhaust ventilation.                                                                                                      |

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Carbimazole Formulation

|         |                |               |                                 |
|---------|----------------|---------------|---------------------------------|
| Version | Revision Date: | SDS Number:   | Date of last issue:             |
| 7.0     | 2025/04/14     | 4098650-00018 | 2024/09/28                      |
|         |                |               | Date of first issue: 2019/03/22 |

Advice on safe handling : Do not get on skin or clothing.  
Do not breathe dust.  
Do not swallow.  
Avoid contact with eyes.  
Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment  
Keep container tightly closed.  
Minimize dust generation and accumulation.  
Keep container closed when not in use.  
Keep away from heat and sources of ignition.  
Take precautionary measures against static discharges.  
Take care to prevent spills, waste and minimize release to the environment.

Avoidance of contact : Oxidizing agents

### Storage

Conditions for safe storage : Keep in properly labelled containers.  
Store locked up.  
Keep tightly closed.  
Store in accordance with the particular national regulations.

Materials to avoid : Do not store with the following product types:  
Strong oxidizing agents

Packaging material : Unsuitable material: None known.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Components with workplace control parameters

| Components  | CAS-No.    | Value type<br>(Form of exposure)    | Control parameters / Permissible concentration | Basis    |
|-------------|------------|-------------------------------------|------------------------------------------------|----------|
| Cellulose   | 9004-34-6  | PC-TWA                              | 10 mg/m <sup>3</sup>                           | CN OEL   |
|             |            | TWA                                 | 10 mg/m <sup>3</sup>                           | ACGIH    |
| Carbimazole | 22232-54-8 | TWA                                 | 20 µg/m <sup>3</sup> (OEB 3)                   | Internal |
|             |            | Wipe limit                          | 200 µg/100 cm <sup>2</sup>                     | Internal |
| Talc        | 14807-96-6 | PC-TWA<br>(Total dust)              | 3 mg/m <sup>3</sup>                            | CN OEL   |
|             |            | PC-TWA<br>(Respirable dust)         | 1 mg/m <sup>3</sup>                            | CN OEL   |
|             |            | TWA (Respirable particulate matter) | 2 mg/m <sup>3</sup>                            | ACGIH    |

Engineering measures : All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.  
Containment technologies suitable for controlling compounds

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Carbimazole Formulation

|         |                |               |                                 |
|---------|----------------|---------------|---------------------------------|
| Version | Revision Date: | SDS Number:   | Date of last issue: 2024/09/28  |
| 7.0     | 2025/04/14     | 4098650-00018 | Date of first issue: 2019/03/22 |

are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

Minimize open handling.

### Personal protective equipment

|                          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : | If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.                                                                                                                                                                                                                                                                                                                            |
| Filter type              | : | Particulates type                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Eye/face protection      | : | Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.                                                                                                                                                                                        |
| Skin and body protection | : | Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.                                                                                                                                                                                                           |
| Hand protection          | : |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Material                 | : | Chemical-resistant gloves                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Remarks                  | : | Consider double gloving.                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Hygiene measures         | : | If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. |

### Skin corrosion/irritation

Not classified based on available information.

#### Components:

##### Carbimazole:

||Remarks : No data available

##### Talc:

||Species : Rabbit  
||Result : No skin irritation

### Serious eye damage/eye irritation

Not classified based on available information.

#### Components:

##### Carbimazole:

||Remarks : No data available

##### Talc:

||Species : Rabbit  
||Result : No eye irritation

### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### Respiratory sensitisation

Not classified based on available information.

#### Components:

##### Carbimazole:

||Remarks : No data available

##### Talc:

||Exposure routes : Skin contact  
||Species : Humans  
||Result : negative

### Germ cell mutagenicity

Not classified based on available information.

#### Components:

##### Cellulose:

||Genotoxicity in vitro : Test Type: Bacterial reverse mutation assay (AMES)

### STOT - single exposure

Not classified based on available information.

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Carbimazole Formulation

|         |                |               |                                 |
|---------|----------------|---------------|---------------------------------|
| Version | Revision Date: | SDS Number:   | Date of last issue: 2024/09/28  |
| 7.0     | 2025/04/14     | 4098650-00018 | Date of first issue: 2019/03/22 |

### STOT - repeated exposure

May cause damage to organs through prolonged or repeated exposure.

#### Components:

##### Carbimazole:

|                 |                                                                      |
|-----------------|----------------------------------------------------------------------|
| Exposure routes | : Skin contact                                                       |
| Target Organs   | : Thyroid, Adrenal gland, Testis                                     |
| Assessment      | : May cause damage to organs through prolonged or repeated exposure. |

### Repeated dose toxicity

#### Components:

##### Cellulose:

|                   |                      |
|-------------------|----------------------|
| Species           | : Rat                |
| NOAEL             | : $\geq 9,000$ mg/kg |
| Application Route | : Ingestion          |
| Exposure time     | : 90 Days            |

##### Carbimazole:

|                   |                   |
|-------------------|-------------------|
| Species           | : Rat             |
| LOAEL             | : 0.5 mg/kg       |
| Application Route | : Intraperitoneal |
| Exposure time     | : 15 Days         |
| Target Organs     | : Thyroid         |

|                   |                   |
|-------------------|-------------------|
| Species           | : Rat             |
| LOAEL             | : 1.35 mg/kg      |
| Application Route | : Oral            |
| Exposure time     | : 8 Weeks         |
| Target Organs     | : Thyroid, Testis |

### Aspiration toxicity

Not classified based on available information.

### Experience with human exposure

#### Components:

##### Carbimazole:

|           |                                                             |
|-----------|-------------------------------------------------------------|
| Ingestion | : Symptoms: Rash, hearing loss, Headache, Nausea, hair loss |
|-----------|-------------------------------------------------------------|

### Talc:

Toxicity to fish : LC50 (Brachydanio rerio (zebrafish)): > 100,000 mg/l  
Exposure time: 24 h

### Persistence and degradability

#### Components:

#### Cellulose:

Biodegradability : Result: Readily biodegradable.

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

## 13. DISPOSAL CONSIDERATIONS

### Disposal methods

Waste from residues : Do not dispose of waste into sewer.  
Dispose of in accordance with local regulations.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.  
If not otherwise specified: Dispose of as unused product.

## 14. TRANSPORT INFORMATION

### International Regulations

#### UNRTDG

UN number : UN 3077

Proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S.  
(Carbimazole)

Class : 9

Packing group : III

Labels : 9

Environmentally hazardous : yes

#### IATA-DGR

UN/ID No. : UN 3077

Proper shipping name : Environmentally hazardous substance, solid, n.o.s.  
(Carbimazole)

Class : 9

Packing group : III

Labels : Miscellaneous

# SAFETY DATA SHEET

Packing instruction (cargo aircraft) : 956  
Packing instruction (passenger aircraft) : 956  
Environmentally hazardous : yes

### IMDG-Code

UN number : UN 3077  
Proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (Carbimazole)  
Class : 9  
Packing group : III  
Labels : 9  
EmS Code : F-A, S-F  
Marine pollutant : yes

### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

### National Regulations

#### GB 6944/12268

UN number : UN 3077  
Proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (Carbimazole)  
Class : 9  
Packing group : III  
Labels : 9  
Marine pollutant : no

### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

## 15. REGULATORY INFORMATION

### National regulatory information

#### Law on the Prevention and Control of Occupational Diseases

#### Regulations on Safety Management of Hazardous Chemicals

Catalogue of Hazardous Chemicals : This product is not listed in the catalogue of hazardous chemicals, but it meets the definition of hazardous chemicals and its principles of determination.

Identification of Major Hazard Installations for Hazardous Chemicals (GB 18218) : Not listed

# SAFETY DATA SHEET
