

# SAFETY DATA SHEET

## Multivitamin Aqueous Formulation

Version 5.0 Revision Date: 14.04.2025 SDS Number: 4248884-00013 Date of last issue: 28.09.2024 Date of first issue: 06.05.2019

### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Multivitamin Aqueous Formulation

#### Manufacturer or supplier's details

Company name of supplier : MSD  
Address : 126 E. Lincoln Avenue  
Rahway, New Jersey U.S.A. 07065  
Telephone : 908-740-4000  
Emergency telephone : 1-908-423-6000  
E-mail address : EHSDATASTEWARD@msd.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Veterinary product  
Restrictions on use : Not applicable

### SECTION 2. HAZARDS IDENTIFICATION

#### GHS Classification

Not a hazardous substance or mixture.

#### GHS label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

#### Other hazards

None known.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

| Chemical name                             | CAS-No.  | Concentration (% w/w) |
|-------------------------------------------|----------|-----------------------|
| Benzyl alcohol                            | 100-51-6 | >= 0.1 - < 1          |
| Riboflavin 5'-(sodium hydrogen phosphate) | 130-40-5 | < 0.1                 |
| Pyridoxine Hydrochloride                  | 58-56-0  | < 0.1                 |
| Cyanocobalamin                            | 68-19-9  | < 0.1                 |

### SECTION 4. FIRST AID MEASURES

If inhaled : If inhaled, remove to fresh air.  
Get medical attention if symptoms occur.

In case of skin contact : Wash with water and soap as a precaution.  
Get medical attention if symptoms occur.

In case of eye contact : Flush eyes with water as a precaution.  
Get medical attention if irritation develops and persists.

If swallowed : If swallowed, DO NOT induce vomiting.  
Get medical attention if symptoms occur.  
Rinse mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed : None known.

# SAFETY DATA SHEET

## Multivitamin Aqueous Formulation

|                |                              |                              |                                                                   |
|----------------|------------------------------|------------------------------|-------------------------------------------------------------------|
| Version<br>5.0 | Revision Date:<br>14.04.2025 | SDS Number:<br>4248884-00013 | Date of last issue: 28.09.2024<br>Date of first issue: 06.05.2019 |
|----------------|------------------------------|------------------------------|-------------------------------------------------------------------|

Protection of first-aiders : No special precautions are necessary for first aid responders.  
Notes to physician : Treat symptomatically and supportively.

### SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media : Water spray  
Alcohol-resistant foam  
Carbon dioxide (CO<sub>2</sub>)  
Dry chemical

Unsuitable extinguishing media : None known.

Specific hazards during fire fighting : Exposure to combustion products may be a hazard to health.

Hazardous combustion products : Carbon oxides

Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.  
Use personal protective equipment.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures : Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).

Environmental precautions : Avoid release to the environment.  
Prevent further leakage or spillage if safe to do so.  
Prevent spreading over a wide area (e.g., by containment or oil barriers).  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up : Soak up with inert absorbent material.  
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.  
Clean up remaining materials from spill with suitable absorbent.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items

## Multivitamin Aqueous Formulation

Version  
5.0

Revision Date:  
14.04.2025

SDS Number:  
4248884-00013

Date of last issue: 28.09.2024  
Date of first issue: 06.05.2019

employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

### SECTION 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                                                                            |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Technical measures          | : See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.                                                                                                                                            |
| Local/Total ventilation     | : Use only with adequate ventilation.                                                                                                                                                                                      |
| Advice on safe handling     | : Avoid prolonged or repeated contact with skin. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment                                          |
|                             | : Take care to prevent spills, waste and minimize release to the environment.                                                                                                                                              |
| Hygiene measures            | : If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.<br>When using do not eat, drink or smoke.<br>Wash contaminated clothing before re-use. |
| Conditions for safe storage | : Keep in properly labeled containers.<br>Store in accordance with the particular national regulations.                                                                                                                    |
| Materials to avoid          | : Do not store with the following product types:<br>Strong oxidizing agents<br>Gases                                                                                                                                       |

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Ingredients with workplace control parameters

| Components                                | CAS-No.  | Value type<br>(Form of<br>exposure) | Control parame-<br>ters / Permissible<br>concentration | Basis    |
|-------------------------------------------|----------|-------------------------------------|--------------------------------------------------------|----------|
| Riboflavin 5'-(sodium hydrogen phosphate) | 130-40-5 | TWA                                 | 100 ug/m3 (OEB 2)                                      | Internal |
| Pyridoxine Hydrochloride                  | 58-56-0  | TWA                                 | OEB 3 (>= 10 < 100 µg/m3)                              | Internal |
| Cyanocobalamin                            | 68-19-9  | TWA                                 | 15 µg/m3 (OEB 3)                                       | Internal |
|                                           |          | Wipe limit                          | 150 µg/100 cm2                                         | Internal |

**Engineering measures** : Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

#### Personal protective equipment

Respiratory protection : No personal respiratory protective equipment normally required.

#### Hand protection

Remarks : For prolonged or repeated contact use protective gloves. Wash hands before breaks and at the end of workday.

Eye protection : Wear the following personal protective equipment: Safety glasses

# SAFETY DATA SHEET

## Multivitamin Aqueous Formulation

Version Revision Date: SDS Number: Date of last issue: 28.09.2024  
5.0 14.04.2025 4248884-00013 Date of first issue: 06.05.2019

Skin and body protection : Skin should be washed after contact.

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Aqueous solution

Color : red

Odor : characteristic

Odor Threshold : No data available

pH : No data available

Melting point/freezing point : 0 °C

Initial boiling point and boiling range : 100.5 °C

Flash point : No data available

Evaporation rate : No data available

Flammability (solid, gas) : Not applicable

Flammability (liquids) : Not applicable

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit : No data available

Vapor pressure : No data available

Relative vapor density : No data available.

Relative density : 1.01

Density : No data available

Solubility(ies) : Water solubility : No data available

Partition coefficient: n-octanol/water : Not applicable

Autoignition temperature : No data available

Viscosity

Viscosity, kinematic . . . No data available

## Multivitamin Aqueous Formulation

Version 5.0 Revision Date: 14.04.2025 SDS Number: 4248884-00013 Date of last issue: 28.09.2024 Date of first issue: 06.05.2019

---

Oxidizing properties : The substance or mixture is not classified as oxidizing.  
Molecular weight : No data available  
Particle characteristics  
Particle size : Not applicable

---

## SECTION 10. STABILITY AND REACTIVITY

Reactivity : Not classified as a reactivity hazard.  
Chemical stability : Stable under normal conditions.  
Possibility of hazardous reactions : Can react with strong oxidizing agents.  
Conditions to avoid : None known.  
Incompatible materials : Oxidizing agents  
Hazardous decomposition products : No hazardous decomposition products are known.

---

## SECTION 11. TOXICOLOGICAL INFORMATION

### Information on likely routes of exposure

Inhalation  
Skin contact  
Ingestion  
Eye contact

### Acute toxicity

Not classified based on available information.

### Components:

#### Benzyl alcohol:

Acute oral toxicity : LD50 (Rat): 1,200 mg/kg  
Acute inhalation toxicity : LC50 (Rat): > 5.4 mg/l  
Exposure time: 4 h  
Test atmosphere: dust/mist  
Method: OECD Test Guideline 403  
Assessment: The substance or mixture has no acute inhalation toxicity

#### Riboflavin 5'-(sodium hydrogen phosphate):

Acute oral toxicity : LD50 (Rat): > 20,000 mg/kg

#### Pyridoxine Hydrochloride:

Acute oral toxicity : LD50 (Rat): 4,000 mg/kg

#### Cyanocobalamin:

Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg

# SAFETY DATA SHEET

## Multivitamin Aqueous Formulation

Version 5.0      Revision Date: 14.04.2025      SDS Number: 4248884-00013      Date of last issue: 28.09.2024  
Date of first issue: 06.05.2019

### **Skin corrosion/irritation**

Not classified based on available information.

#### **Components:**

##### **Benzyl alcohol:**

|         |   |                         |
|---------|---|-------------------------|
| Species | : | Rabbit                  |
| Method  | : | OECD Test Guideline 404 |
| Result  | : | No skin irritation      |

##### **Pyridoxine Hydrochloride:**

|         |   |                    |
|---------|---|--------------------|
| Species | : | Rabbit             |
| Result  | : | No skin irritation |

### **Serious eye damage/eye irritation**

Not classified based on available information.

#### **Components:**

##### **Benzyl alcohol:**

|         |   |                                              |
|---------|---|----------------------------------------------|
| Species | : | Rabbit                                       |
| Result  | : | Irritation to eyes, reversing within 21 days |
| Method  | : | OECD Test Guideline 405                      |

##### **Pyridoxine Hydrochloride:**

|         |   |                   |
|---------|---|-------------------|
| Species | : | Rabbit            |
| Result  | : | No eye irritation |

### **Respiratory or skin sensitization**

#### **Skin sensitization**

Not classified based on available information.

#### **Respiratory sensitization**

Not classified based on available information.

#### **Components:**

##### **Benzyl alcohol:**

|                    |   |                                                                              |
|--------------------|---|------------------------------------------------------------------------------|
| Test Type          | : | Human repeat insult patch test (HRIPT)                                       |
| Routes of exposure | : | Skin contact                                                                 |
| Species            | : | Humans                                                                       |
| Result             | : | positive                                                                     |
| Assessment         | : | Probability or evidence of low to moderate skin sensitization rate in humans |

##### **Pyridoxine Hydrochloride:**

|                    |   |                         |
|--------------------|---|-------------------------|
| Test Type          | : | Maximization Test       |
| Routes of exposure | : | Skin contact            |
| Species            | : | Guinea pig              |
| Method             | : | OECD Test Guideline 406 |
| Result             | : | negative                |

## Multivitamin Aqueous Formulation

Version 5.0 Revision Date: 14.04.2025 SDS Number: 4248884-00013 Date of last issue: 28.09.2024 Date of first issue: 06.05.2019

### SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

##### Components:

###### **Benzyl alcohol:**

|                                                                        |                                                                                                                            |
|------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish                                                       | : LC50 (Pimephales promelas (fathead minnow)): 460 mg/l<br>Exposure time: 96 h                                             |
| Toxicity to daphnia and other aquatic invertebrates                    | : EC50 (Daphnia magna (Water flea)): 230 mg/l<br>Exposure time: 48 h<br>Method: OECD Test Guideline 202                    |
| Toxicity to algae/aquatic plants                                       | : EC50 (Pseudokirchneriella subcapitata (green algae)): 770 mg/l<br>Exposure time: 72 h<br>Method: OECD Test Guideline 201 |
|                                                                        | : NOEC (Pseudokirchneriella subcapitata (green algae)): 310 mg/l<br>Exposure time: 72 h<br>Method: OECD Test Guideline 201 |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia magna (Water flea)): 51 mg/l<br>Exposure time: 21 d<br>Method: OECD Test Guideline 211                     |

###### **Riboflavin 5'-(sodium hydrogen phosphate):**

|                                                     |                                                                                                                                    |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish                                    | : LC50 (Pimephales promelas (fathead minnow)): > 64.3 mg/l<br>Exposure time: 96 h<br>Remarks: Based on data from similar materials |
| Toxicity to daphnia and other aquatic invertebrates | : EC50 (Daphnia magna (Water flea)): > 47.4 mg/l<br>Exposure time: 48 h<br>Remarks: Based on data from similar materials           |

###### **Pyridoxine Hydrochloride:**

|                                                     |                                                                                 |
|-----------------------------------------------------|---------------------------------------------------------------------------------|
| Toxicity to fish                                    | : LC50 (Oncorhynchus mykiss (rainbow trout)): > 100 mg/l<br>Exposure time: 96 h |
| Toxicity to daphnia and other aquatic invertebrates | : EC50 (Daphnia magna (Water flea)): > 100 mg/l<br>Exposure time: 48 h          |

###### **Cyanocobalamin:**

|                                                     |                                                                                                                                     |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish                                    | : LC50 (Oncorhynchus mykiss (rainbow trout)): > 1 - 10 mg/l<br>Exposure time: 14 d<br>Remarks: Based on data from similar materials |
| Toxicity to daphnia and other aquatic invertebrates | : EC50 (Ceriodaphnia dubia (water flea)): > 10 - 100 mg/l<br>Exposure time: 48 h<br>Remarks: Based on data from similar materials   |

|                                                                        |                                                                                                                                 |
|------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to algae/aquatic plants                                       | : EC50 (Champia parvula (marine algae)): > 0.1 - 1 mg/l<br>Exposure time: 72 h<br>Remarks: Based on data from similar materials |
|                                                                        | EC10 (Lemma minor (common duckweed)): > 0.1 - 1 mg/l<br>Exposure time: 7 d<br>Remarks: Based on data from similar materials     |
| Toxicity to fish (Chronic toxicity)                                    | : NOEC (Danio rerio (zebra fish)): > 1 mg/l<br>Exposure time: 16 d<br>Remarks: Based on data from similar materials             |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia magna (Water flea)): > 0.1 - 1 mg/l<br>Exposure time: 28 d<br>Remarks: Based on data from similar materials     |

### Persistence and degradability

#### Components:

##### **Benzyl alcohol:**

|                  |                                                                                      |
|------------------|--------------------------------------------------------------------------------------|
| Biodegradability | : Result: Readily biodegradable.<br>Biodegradation: 92 - 96 %<br>Exposure time: 14 d |
|------------------|--------------------------------------------------------------------------------------|

##### **Riboflavin 5'-(sodium hydrogen phosphate):**

|                  |                                                                                   |
|------------------|-----------------------------------------------------------------------------------|
| Biodegradability | : Result: Readily biodegradable.<br>Remarks: Based on data from similar materials |
|------------------|-----------------------------------------------------------------------------------|

##### **Pyridoxine Hydrochloride:**

|                  |                                                                                                                     |
|------------------|---------------------------------------------------------------------------------------------------------------------|
| Biodegradability | : Result: Readily biodegradable.<br>Biodegradation: 94 %<br>Exposure time: 28 d<br>Method: OECD Test Guideline 301E |
|------------------|---------------------------------------------------------------------------------------------------------------------|

### Bioaccumulative potential

#### Components:

##### **Benzyl alcohol:**

|                                        |                 |
|----------------------------------------|-----------------|
| Partition coefficient: n-octanol/water | : log Pow: 1.05 |
|----------------------------------------|-----------------|

##### **Riboflavin 5'-(sodium hydrogen phosphate):**

|                                        |                                           |
|----------------------------------------|-------------------------------------------|
| Partition coefficient: n-octanol/water | : log Pow: -0.651<br>Remarks: Calculation |
|----------------------------------------|-------------------------------------------|

##### **Pyridoxine Hydrochloride:**

|                                        |                 |
|----------------------------------------|-----------------|
| Partition coefficient: n-octanol/water | : log Pow: 4.32 |
|----------------------------------------|-----------------|

# SAFETY DATA SHEET

## Multivitamin Aqueous Formulation

Version 5.0 Revision Date: 14.04.2025 SDS Number: 4248884-00013 Date of last issue: 28.09.2024  
Date of first issue: 06.05.2019

---

### **Mobility in soil**

No data available

### **Other adverse effects**

No data available

---

## SECTION 13. DISPOSAL CONSIDERATIONS

### **Disposal methods**

Waste from residues : Do not dispose of waste into sewer.  
Dispose of in accordance with local regulations.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.  
If not otherwise specified: Dispose of as unused product.

---

## SECTION 14. TRANSPORT INFORMATION

### **International Regulations**

#### **UNRTDG**

Not regulated as a dangerous good

#### **IATA-DGR**

Not regulated as a dangerous good

#### **IMDG-Code**

Not regulated as a dangerous good

### **Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable for product as supplied.

### **Domestic regulation**

#### **NOM-002-SCT**

Not regulated as a dangerous good

#### **Special precautions for user**

Not applicable

---

## SECTION 15. REGULATORY INFORMATION

### **Safety, health and environmental regulations/legislation specific for the substance or mixture**

Federal Law for the control of chemical precursors, essential chemical products and machinery for producing capsules, tablets and pills. : Not applicable

### **The ingredients of this product are reported in the following inventories:**

AICS : not determined

DSL : not determined

IECSC : not determined
