

## Rice Flour Formulation

Version 2.0      Revision Date: 14.04.2025      SDS Number: 11506882-00002      Date of last issue: 04.02.2025  
Date of first issue: 04.02.2025

## SECTION 1. IDENTIFICATION

Product identifier : Rice Flour Formulation

Product code : Nustic

**Manufacturer or supplier's details**

Company : MSD

Address : Rua Coronel Bento Soares, 530  
Cruzeiro - Sao Paulo - Brazil CEP 12730-340

Telephone : 908-740-4000

Emergency telephone : 1-908-423-6000

E-mail address : EHSDATASTEWARD@msd.com

**Recommended use of the chemical and restrictions on use**

Recommended use : Veterinary product

Restrictions on use : Not applicable

## SECTION 2. HAZARDS IDENTIFICATION

**GHS Classification in accordance with ABNT NBR 14725 Standard**

Not classified as hazardous in accordance with ABNT NBR 14725

**GHS label elements in accordance with ABNT NBR 14725 Standard**

Not classified as hazardous in accordance with ABNT NBR 14725

**Other hazards which do not result in classification**

Dust contact with the eyes can lead to mechanical irritation.

Contact with dust can cause mechanical irritation or drying of the skin.

May form explosive dust-air mixture during processing, handling or other means.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

**Components**

| Chemical name   | CAS-No.   | Classification       | Concentration (% w/w) |
|-----------------|-----------|----------------------|-----------------------|
| Sodium chloride | 7647-14-5 | Acute Tox. (Oral), 5 | $\geq 1$ - $< 5$      |

## SECTION 4. FIRST AID MEASURES

General advice : In the case of accident or if you feel unwell, seek medical advice immediately.  
When symptoms persist or in all cases of doubt seek medical

|                                                             |   |                                                                                                                                           |
|-------------------------------------------------------------|---|-------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled                                                  | : | advice.<br>If inhaled, remove to fresh air.<br>Get medical attention if symptoms occur.                                                   |
| In case of skin contact                                     | : | Wash with water and soap.<br>Get medical attention if symptoms occur.                                                                     |
| In case of eye contact                                      | : | If in eyes, rinse well with water.<br>Get medical attention if irritation develops and persists.                                          |
| If swallowed                                                | : | If swallowed, DO NOT induce vomiting.<br>Get medical attention if symptoms occur.<br>Rinse mouth thoroughly with water.                   |
| Most important symptoms and effects, both acute and delayed | : | Contact with dust can cause mechanical irritation or drying of the skin.<br>Dust contact with the eyes can lead to mechanical irritation. |
| Protection of first-aiders                                  | : | No special precautions are necessary for first aid responders.                                                                            |
| Notes to physician                                          | : | Treat symptomatically and supportively.                                                                                                   |

**SECTION 5. FIRE-FIGHTING MEASURES**

|                                                |   |                                                                                                                                                                                                                                                 |
|------------------------------------------------|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                   | : | Water spray<br>Alcohol-resistant foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry chemical                                                                                                                                                      |
| Unsuitable extinguishing media                 | : | None known.                                                                                                                                                                                                                                     |
| Specific hazards during fire fighting          | : | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.<br>Exposure to combustion products may be a hazard to health.                   |
| Hazardous combustion products                  | : | Carbon oxides<br>Nitrogen oxides (NO <sub>x</sub> )<br>Sulfur oxides<br>Metal oxides<br>Chlorine compounds                                                                                                                                      |
| Specific extinguishing methods                 | : | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.<br>Use water spray to cool unopened containers.<br>Remove undamaged containers from fire area if it is safe to do so.<br>Evacuate area. |
| Special protective equipment for fire-fighters | : | Wear self-contained breathing apparatus for firefighting if necessary.<br>Use personal protective equipment.                                                                                                                                    |

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

|                                                                     |   |                                                                                                                |
|---------------------------------------------------------------------|---|----------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : | Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8). |
|---------------------------------------------------------------------|---|----------------------------------------------------------------------------------------------------------------|

## Rice Flour Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue: 04.02.2025  |
| 2.0     | 14.04.2025     | 11506882-00002 | Date of first issue: 04.02.2025 |

- Environmental precautions : Avoid release to the environment.  
Prevent further leakage or spillage if safe to do so.  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.
- Methods and materials for containment and cleaning up : Sweep up or vacuum up spillage and collect in suitable container for disposal.  
Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).  
Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

**SECTION 7. HANDLING AND STORAGE**

- Technical measures : Static electricity may accumulate and ignite suspended dust causing an explosion.  
Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.
- Local/Total ventilation : Use only with adequate ventilation.
- Advice on safe handling : Do not breathe dust.  
Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment  
Minimize dust generation and accumulation.  
Keep container closed when not in use.  
Keep away from heat and sources of ignition.  
Take precautionary measures against static discharges.  
Take care to prevent spills, waste and minimize release to the environment.
- Hygiene measures : If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.  
When using do not eat, drink or smoke.  
Wash contaminated clothing before re-use.  
The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
- Conditions for safe storage : Keep in properly labeled containers.  
Store in accordance with the particular national regulations.
- Materials to avoid : Do not store with the following product types:  
Strong oxidizing agents

| Version | Revision Date: | SDS Number:    | Date of last issue: 04.02.2025  |
| 2.0     | 14.04.2025     | 11506882-00002 | Date of first issue: 04.02.2025 |

**SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION****Ingredients with workplace control parameters**

Contains no substances with occupational exposure limit values.

**Engineering measures** : All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). Minimize open handling.

**Personal protective equipment**

**Respiratory protection** : If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.

**Filter type** : Particulates type

**Hand protection**

**Material** : Chemical-resistant gloves

**Remarks** : Consider double gloving.

**Eye protection** : Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.

**Skin and body protection** : Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

**Physical state** : powder

**Color** : White to light yellow

**Odor** : characteristic

**Odor Threshold** : No data available

**pH** : No data available

**Melting point/freezing point** : No data available

**Initial boiling point and boiling range** : No data available

| Hazardous decomposition products | : | No hazardous decomposition products are known.    |

**SECTION 11. TOXICOLOGICAL INFORMATION**

|                                          |   |                                                        |
|------------------------------------------|---|--------------------------------------------------------|
| Information on likely routes of exposure | : | Inhalation<br>Skin contact<br>Ingestion<br>Eye contact |
|------------------------------------------|---|--------------------------------------------------------|

**Acute toxicity**

Not classified based on available information.

**Product:**

|                     |   |                                                                      |
|---------------------|---|----------------------------------------------------------------------|
| Acute oral toxicity | : | Acute toxicity estimate: > 5.000 mg/kg<br>Method: Calculation method |
|---------------------|---|----------------------------------------------------------------------|

**Components:****Sodium chloride:**

|                           |   |                                                                           |
|---------------------------|---|---------------------------------------------------------------------------|
| Acute oral toxicity       | : | LD50 (Rat): 3.550 mg/kg                                                   |
| Acute inhalation toxicity | : | LC50 (Rat): > 42 mg/l<br>Exposure time: 1 h<br>Test atmosphere: dust/mist |
| Acute dermal toxicity     | : | LD50 (Rabbit): > 5.000 mg/kg                                              |

**Skin corrosion/irritation**

Not classified based on available information.

**Components:****Sodium chloride:**

|         |   |                    |
|---------|---|--------------------|
| Species | : | Rabbit             |
| Result  | : | No skin irritation |

**Serious eye damage/eye irritation**

Not classified based on available information.

**Components:****Sodium chloride:**

|         |   |                   |
|---------|---|-------------------|
| Species | : | Rabbit            |
| Result  | : | No eye irritation |

**Respiratory or skin sensitization****Skin sensitization**

Not classified based on available information.

## Rice Flour Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue: 04.02.2025  |
| 2.0     | 14.04.2025     | 11506882-00002 | Date of first issue: 04.02.2025 |

**Respiratory sensitization**

Not classified based on available information.

**Components:****Sodium chloride:**

|                    |                                 |
|--------------------|---------------------------------|
| Test Type          | : Local lymph node assay (LLNA) |
| Routes of exposure | : Skin contact                  |
| Species            | : Mouse                         |
| Result             | : negative                      |

**Germ cell mutagenicity**

Not classified based on available information.

**Components:****Sodium chloride:**

|                                     |                                                                                                                                                                                    |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Genotoxicity in vitro               | : Test Type: In vitro mammalian cell gene mutation test<br>Result: positive                                                                                                        |
|                                     | Test Type: Bacterial reverse mutation assay (AMES)<br>Result: negative                                                                                                             |
|                                     | Test Type: Saccharomyces cerevisiae, gene mutation assay (in vitro)<br>Result: positive                                                                                            |
|                                     | Test Type: DNA damage and repair, unscheduled DNA synthesis in mammalian cells (in vitro)<br>Result: positive                                                                      |
|                                     | Test Type: Chromosome aberration test in vitro<br>Result: positive                                                                                                                 |
|                                     | Test Type: Chromosome aberration test in vitro<br>Result: negative                                                                                                                 |
| Genotoxicity in vivo                | : Test Type: In vivo micronucleus test<br>Species: Mouse<br>Application Route: Intraperitoneal injection<br>Result: negative                                                       |
|                                     | Test Type: Mutagenicity (in vivo mammalian bone-marrow cytogenetic test, chromosomal analysis)<br>Species: Rat<br>Application Route: Intraperitoneal injection<br>Result: positive |
| Germ cell mutagenicity - Assessment | : Weight of evidence does not support classification as a germ cell mutagen.                                                                                                       |

**Carcinogenicity**

Not classified based on available information.

## Rice Flour Formulation

|         |                |                |                                 |

**Components:****Sodium chloride:**

|                   |             |
|-------------------|-------------|
| Species           | : Rat       |
| Application Route | : Ingestion |
| Exposure time     | : 2 Years   |
| Result            | : negative  |

**Reproductive toxicity**

Not classified based on available information.

**STOT-single exposure**

Not classified based on available information.

**STOT-repeated exposure**

Not classified based on available information.

**Repeated dose toxicity****Components:****Sodium chloride:**

|                   |               |
|-------------------|---------------|
| Species           | : Rat         |
| LOAEL             | : 2.533 mg/kg |
| Application Route | : Ingestion   |
| Exposure time     | : 2 y         |

**Aspiration toxicity**

Not classified based on available information.

**SECTION 12. ECOLOGICAL INFORMATION****Ecotoxicity****Components:****Sodium chloride:**

|                                                                        |                                                                                    |
|------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| Toxicity to fish                                                       | : LC50 (Lepomis macrochirus (Bluegill sunfish)): 5.840 mg/l<br>Exposure time: 96 h |
| Toxicity to daphnia and other aquatic invertebrates                    | : EC50 (Daphnia magna (Water flea)): 4.136 mg/l<br>Exposure time: 48 h             |
| Toxicity to algae/aquatic plants                                       | : EC50: > 2.000 mg/l<br>Exposure time: 96 h                                        |
| Toxicity to fish (Chronic toxicity)                                    | : NOEC (Pimephales promelas (fathead minnow)): 252 mg/l<br>Exposure time: 33 d     |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia pulex (Water flea)): 314 mg/l<br>Exposure time: 21 d               |
| Toxicity to microorganisms                                             | : EC10: > 1.000 mg/l                                                               |

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
