		Disposal: P501 Dispose o disposal plant.	of contents/ container to an approved waste

Other hazards which do not result in classification

Vapors may form explosive mixture with air.

Version	Revision Date:	SDS Number:	Date of last issue: 30.09.2023
2.2	28.09.2024	4795016-00012	Date of first issue: 29.08.2019

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
1,3-Dioxan-5-ol	4740-78-7	>= 30 -< 50
Butanone	78-93-3	>= 10 -< 20
abamectin (combination of avermectin B1a and avermectin B1b) (ISO)	71751-41-2	>= 1 -< 2,5

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately.
		When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air.
		If not breathing, give artificial respiration.
		If breathing is difficult, give oxygen.
		Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water.
		Remove contaminated clothing and shoes.
		Get medical attention.
		Wash clothing before reuse.
		Thoroughly clean shoes before reuse.
In case of eye contact	:	In case of contact, immediately flush eyes with plenty of water
		for at least 15 minutes.
		If easy to do, remove contact lens, if worn. Get medical attention.
If swallowed		If swallowed, DO NOT induce vomiting.
	-	If vomiting occurs have person lean forward.
		Call a physician or poison control center immediately.
		Rinse mouth thoroughly with water.
•• •• • • •		Never give anything by mouth to an unconscious person.
Most important symptoms	:	May be harmful if swallowed.
and effects, both acute and delayed		May be harmful if swallowed and enters airways. Causes serious eye irritation.
delayed		Harmful if inhaled.
		May cause damage to organs through prolonged or repeated
		exposure.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection,
		and use the recommended personal protective equipment
		when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray
		Alcohol-resistant foam
		Carbon dioxide (CO2)
		Dry chemical

Vers 2.2	sion	Revision Date: 28.09.2024		0S Number: 95016-00012	Date of last issue: 30.09.2023 Date of first issue: 29.08.2019
	Unsuita media	ble extinguishing	:	High volume wate	er jet
	Specific fighting	c hazards during fire	:	fire. Flash back possib Vapors may form	d water stream as it may scatter and spread ble over considerable distance. explosive mixtures with air. bustion products may be a hazard to health.
	Hazard ucts	ous combustion prod-	:	Carbon oxides	
	Specific ods	c extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do
	•	protective equipment fighters	:		e, wear self-contained breathing apparatus. tective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Remove all sources of ignition. Ventilate the area. Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Non-sparking tools should be used. Soak up with inert absorbent material. Suppress (knock down) gases/vapors/mists with a water spray jet. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to

Version 2.2	Revision Date: 28.09.2024	SDS Number: 4795016-00012	Date of last issue: 30.09.2023 Date of first issue: 29.08.2019
		Sections 13 and	h regulations are applicable. d 15 of this SDS provide information regarding national requirements.
SECTION	7. HANDLING AND ST	TORAGE	
Techr	nical measures		g measures under EXPOSURE
Local	/Total ventilation	: If sufficient ven ventilation.	ERSONAL PROTECTION section. tilation is unavailable, use with local exhaust proof electrical, ventilating and lighting equip-
Advic	e on safe handling	: Do not breathe Do not swallow Do not get in ey Avoid prolonge Wash skin thor Handle in acco practice, based assessment Non-sparking to Keep container Keep away fror other ignition so Take precaution Do not eat, drin	yes. d or repeated contact with skin. oughly after handling. rdance with good industrial hygiene and safety on the results of the workplace exposure pols should be used.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Ver 2.2	sion	Revision Date: 28.09.2024	SDS Number: 4795016-00012		t issue: 30.09.2023 t issue: 29.08.2019	
	Compo	onents	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
	Butanc	one	78-93-3	CMP	200 ppm	AR OEL
				CMP - CPT	300 ppm	AR OEL
				TWA	75 ppm	ACGIH
				STEL	150 ppm	ACGIH
	averme	ctin (combination of ectin B1a and avermec-) (ISO)	71751-41-2	TWA	15 μg/m3 (OEB 3)	Internal
				Wipe limit	150 µg/100 cm ²	Internal

Biological occupational exposure limits

Components	CAS-No.	Control parameters	Biological specimen	Sam- pling time	Permissible concentra- tion	Basis
Butanone	78-93-3	MEK	Urine	End of shift	2 mg/l	AR BEI
		methyl ethyl ketone	Urine	End of shift (As soon as possible after exposure ceases)	2 mg/l	ACGIH BEI

Engineering measures :		Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip- less quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). Minimize open handling.
		Use explosion-proof electrical, ventilating and lighting equipment.
Personal protective equipm	ent	
Respiratory protection	:	If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.
Filter type Hand protection	:	Combined particulates and organic vapor type
Material	:	Chemical-resistant gloves
Remarks	:	Consider double gloving. Take note that the product is flammable, which may impact the selection of hand protection.

Version 2.2	Revision Date: 28.09.2024	SDS Number: 4795016-00012	Date of last issue: 30.09.2023 Date of first issue: 29.08.2019				
Eye protection		: Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.					
Skin a	nd body protection	: Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing					
Hygier	ne measures	eye flushing syste working place. When using do n Wash contamina The effective ope engineering contr appropriate dego industrial hygiene	contaminated clothing. If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.				

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	liquid
Color	:	Colorless to pale yellow
Odor	:	characteristic
Odor Threshold	:	No data available
рН	:	No data available
Melting point/freezing point	:	< -66 °C
Initial boiling point and boiling range	:	82 °C
Flash point	:	16 °C
Evaporation rate	:	No data available
Flammability (solid, gas)	:	Not applicable
Flammability (liquids)	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available

Vers 2.2	sion	Revision Date: 28.09.2024		S Number: 95016-00012	Date of last issue: 30.09.2023 Date of first issue: 29.08.2019
	Vapor p	pressure	:	No data available	
	Relative	e vapor density	:	No data available	
	Relative density		:	1,05 - 1,09	
	Density	,	:	No data available	
	Solubili Wat	ty(ies) er solubility	:	slightly soluble	
	Solu	bility in other solvents	:	soluble Solvent: Ethanol	
	Partitio octanol	n coefficient: n-	:	Not applicable	
		nition temperature	:	No data available	,
	Decom	position temperature	:	No data available	
	Viscosi Visc	ty sosity, kinematic	:	No data available	
	Explosi	ve properties	:	Not explosive	
	Oxidizir	ng properties	:	The substance o	mixture is not classified as oxidizing.
	Molecu	lar weight	:	No data available	
	Particle Particle	e characteristics e size	:	Not applicable	

SECTION 10. STABILITY AND REACTIVITY

Reactivity Chemical stability Possibility of hazardous reac- tions	:	Not classified as a reactivity hazard. Stable under normal conditions. Highly flammable liquid and vapor. Vapors may form explosive mixture with air. Can react with strong oxidizing agents.
Conditions to avoid Incompatible materials Hazardous decomposition products		Heat, flames and sparks. Oxidizing agents No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of	:	Inhalation
exposure		Skin contact
		Ingestion
		Eye contact

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

Argentina. Carcinogenic Substances and Agents: Not applicableRegistry.Control of precursors and essential chemicals for the: Not applicable

control of precursors and essential chemicals for the : Not applicable preparation of drugs.

The ingredients of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined

SECTION 16. OTHER INFORMATION

Revision Date	: 28	.09.2024
Date format	: dd	.mm.yyyy
