#### **SECTION 2. HAZARDS IDENTIFICATION**

#### **GHS Classification**

Not a hazardous substance or mixture.

#### **GHS** label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

#### Other hazards which do not result in classification

None known.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

:

Substance / Mixture : Mixture

#### Components

Chemical name	CAS-No.	Concentration (% w/w)
N-Acetyl-DL-methionine	1115-47-5	>= 10 -< 30
nicotinamide	98-92-0	< 10
Caffeine	58-08-2	< 10
Pyridoxine hydrochloride	58-56-0	< 10

#### SECTION 4. FIRST AID MEASURES

If inhaled

If inhaled, remove to fresh air. Get medical attention if symptoms occur.

Vers 4.7	sion	Revision Date: 28.09.2024		0S Number: 57336-00011	Date of last issue: 06.04.2024 Date of first issue: 17.12.2019
	In case	e of skin contact	:		and soap as a precaution. tion if symptoms occur.
	In case	e of eye contact	:	Flush eyes with w	rater as a precaution.
	lf swall	lowed	:	If swallowed, DO Get medical atten	tion if irritation develops and persists. NOT induce vomiting. tion if symptoms occur. oughly with water.
		nportant symptoms fects, both acute and d	:	None known.	
	Protec	tion of first-aiders to physician	:		utions are necessary for first aid responders. cally and supportively.
SEC	CTION 5	5. FIREFIGHTING MEA	SU	RES	
	Suitabl	le extinguishing media	:	Water spray Alcohol-resistant Carbon dioxide (C Dry chemical	
	Unsuita media	able extinguishing	:	None known.	
	Specifi fighting	c hazards during fire-	:	Exposure to com	pustion products may be a hazard to health.

		l protective equipment fighters	:	essary.	ed breathing apparatus for firefighting if nec-

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers).

Version 4.7	Revision Date: 28.09.2024		0S Number: 57336-00011	Date of last issue: 06.04.2024 Date of first issue: 17.12.2019
				bose of contaminated wash water. Is should be advised if significant spillages ained.
	ods and materials for ainment and cleaning up	:	For large spills, ment to keep m be pumped, sto Clean up remain bent. Local or nation posal of this ma employed in the mine which reg Sections 13 an	ert absorbent material. provide dyking or other appropriate contain- naterial from spreading. If dyked material can pre recovered material in appropriate container. ining materials from spill with suitable absor- al regulations may apply to releases and dis- aterial, as well as those materials and items e cleanup of releases. You will need to deter- ulations are applicable. d 15 of this SDS provide information regarding national requirements.

### SECTION 7. HANDLING AND STORAGE

Technical measures Local/Total ventilation Advice on safe handling		See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. Use only with adequate ventilation. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
Conditions for safe storage	:	Keep in properly labelled containers. Store in accordance with the particular national regulations.
Materials to avoid	:	

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
N-Acetyl-DL-methionine	1115-47-5	TWA	2000 µg/m3 (OEB	Internal

			DS Number: 357336-00011	Date of last issue: 06.04.2024 Date of first issue: 17.12.2019						
					1)					
Pyride	oxine hydrochloride		58-56-0	TWA	OEB 3 (>= 10 < 100 μg/m3)	Internal				
Engir	neering measures	:	Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip- less quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face con- tainment devices). Minimize open handling.							
Perso	Personal protective equipment									
Fil	iratory protection Iter type protection	:	<ul> <li>If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.</li> <li>Combined particulates and organic vapour type</li> </ul>							
Ма	aterial	:	Chemical-res	resistant gloves						
Eye protection : Wear = If the w wists of Wear = potent aeroso Skin and body protection : Work of Addition task bo posab Use a			Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols							
			Work uniform Additional boo task being pe posable suits	rformed (e.g., to avoid expo ate degowning	coat. hould be used based u sleevelets, apron, gau bsed skin surfaces. techniques to remove	ntlets, dis-

SECTION	13. DISPOSAL CONSI	DERATIONS	
Disp	osal methods		
Wast	e from residues	· Do not dispose o	of waste into sewer

Waste from residues	:	Do not dispose of waste into sewer. Dispose of in accordance with local regulations.
Contaminated packaging	:	Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
