Section 2: Hazard identification

GHS Classification

Not a hazardous substance or mixture.

GHS label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

Other hazards which do not result in classification

None known.

Section 3: Composition/information on ingredients

Substance / Mixture : Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
N-Acetyl-DL-methionine	1115-47-5	>= 10 -< 20
nicotinamide	98-92-0	>= 1 -< 10
Caffeine	58-08-2	>= 1 -< 10
Pyridoxine hydrochloride	58-56-0	>= 0.1 -< 1

Section 4: First-aid measures

5.2	Revision Date: 28.09.2024		0S Number: 57343-00010	Date of last issue: 30.09.2023 Date of first issue: 17.12.2019	
lf inha	aled	:	If inhaled, remove Get medical atter	e to fresh air. tion if symptoms occur.	
In ca	In case of skin contact		Wash with water	and soap as a precaution. tion if symptoms occur.	
In ca	In case of eye contact		Flush eyes with w	vater as a precaution. tion if irritation develops and persists.	
lf swa	If swallowed Most important symptoms and effects, both acute and delayed Protection of first-aiders Notes to physician		If swallowed, DO Get medical atter	NOT induce vomiting. tion if symptoms occur.

media Spec fightir Haza ucts	a ific hazards during fire- ng	:	None known. Exposure to com Carbon oxides Nitrogen oxides (Sulphur oxides Chlorine compou Use extinguishing cumstances and Use water spray	NOx)	

Section 6: Accidental release measures

Personal precautions, protec- tive equipment and emer- gency procedures	:	Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so.

Versio 5.2		Revision Date: 28.09.2024	-	S Number: 57343-00010	Date of last issue: 30.09.2023 Date of first issue: 17.12.2019
				barriers). Retain and dispos	g over a wide area (e.g. by containment or oil se of contaminated wash water. should be advised if significant spillages ned.
Methods and materials for containment and cleaning up		:	 Soak up with inert absorbent material. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate contained Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regardincertain local or national requirements.

Te	echnica	al measures	:		measures under EXPOSURE SONAL PROTECTION section.
Local/Total ventilation : Advice on safe handling :			:		equate ventilation. ance with good industrial hygiene and safety n the results of the workplace exposure as-

Hygiene measures	Hygiene	measures
------------------	---------	----------

		environment.
Hygiene measures		If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working
		place.
		When using do not eat, drink or smoke.
		Wash contaminated clothing before re-use.
		The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
Conditions for safe storage	:	Keep in properly labelled containers.
_		Store in accordance with the particular national regulations.
Materials to avoid	:	Do not store with the following product types: Strong oxidizing agents

Take care to prevent spills, waste and minimize release to the
