| | | Response: P302 + P352 IF P304 + P340 IF keep comfortab P333 + P313 If vice/ attention. P342 + P311 If POISON CENT | skin irritation or rash occurs: Get medical ad- experiencing respiratory symptoms: Call a ER/ doctor. ake off contaminated clothing and wash it before |
| Addit | ional Labelling | Disposal: P501 Dispose o disposal plant. | of contents/ container to an approved waste |

The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 2.2 %

Other hazards which do not result in classification None known.

:

Section 3: Composition/information on ingredients

| Substance | / Mixture | : | Mixture |
|-----------|-----------|---|---------|
| | | | |

Components

| Chemical name | CAS-No. | Concentration (% w/w) |
|------------------------|------------|-----------------------|
| Amoxicillin Trihydrate | 61336-70-7 | >= 10 -< 20 |
| Aluminum tristearate | 637-12-7 | >= 1 -< 10 |
| Benzyl alcohol | 100-51-6 | >= 1 -< 10 |

Section 4: First-aid measures

General advice

In the case of accident or if you feel unwell, seek medical advice immediately.

When symptoms persist or in all cases of doubt seek medical

| Version 5.0 | Revision Date: 06.07.2024 | | DS Number: 793165-00008 | Date of last issue: 06.04.2024 Date of first issue: 14.06.2022 |

You will need to deter- ations are applicable. 5 of this SDS provide information regarding tional requirements. | |
| Secti | ion 7: H | landling and storage | ! | | |
| L | Local/T | cal measures otal ventilation on safe handling | : | | nist or vapours. |

Avoid contact with eyes. Avoid prolonged or repeated contact with skin.

Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment

Keep container tightly closed. Already sensitised individuals, and those susceptible to asthma, allergies, chronic or recurrent respiratory disease, should consult their physician regarding working with respiratory irritants or sensitisers.

Take care to prevent spills, waste and minimize release to the environment.

 Hygiene measures
 :
 If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.

 When using do not eat, drink or smoke.

Wash contaminated clothing before re-use.

The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures,

Components with workplace control parameters

| Engineering measures | : | Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip- less quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Laboratory operations do not require special containment. |
|--------------------------------|----|--|
| Personal protective equipme | nt | |
| Respiratory protection | : | If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. |
| Filter type Hand protection | : | Combined particulates and organic vapour type |
| Material | : | Chemical-resistant gloves |

Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

| Version | Revision Date: | SDS Number: | Date of last issue: 06.04.2024 |
|---------|----------------|----------------|---------------------------------|
| 5.0 | 06.07.2024 | 10793165-00008 | Date of first issue: 14.06.2022 |

HSNO Approval Number

HSR100759 Veterinary Medicines Non dispersive Open System Application Group Standard

Tolerable Exposure Limits (TEL)

Not applicable

Environmental Exposure Limits (EEL)

Not applicable

HSW Controls

Certified handler certificate not required. Tracking hazardous substance not required. Refer to the Health and Safety at Work (Hazardous Substances) Regulations 2017, for further information.

The components of this product are reported in the following inventories:

| AICS | : | not determined |
|-------|---|----------------|
| DSL | : | not determined |
| IECSC | : | not determined |

Section 16: Other information

| Revision Date | : | 06.07.2024 |
|--|---|--|
| Further information Sources of key data used to compile the Safety Data Sheet | : | Internal technical data, data from raw material SDSs, OECD eChem Portal search results and European Chemicals Agen- cy, http://echa.europa.eu/ |

Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
