SECTION 2. HAZARDS IDENTIFICATION

| GHS Classification in accordance with ABNT NBR 14725 Standard Respiratory sensitization : Category 1 | | | | | |
|---|----------|---|--|--|--|
| Short-term (acute) aquatic hazard | : | Category 1 | | | |
| Long-term (chronic) aquatic hazard | : | Category 1 | | | |
| GHS label elements in accor Hazard pictograms | dar : | nce with ABNT NBR 14725 Standard | | | |
| Signal Word | : | Danger | | | |
| Hazard Statements | : | H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H410 Very toxic to aquatic life with long lasting effects. | | | |
| Precautionary Statements | : | Prevention: P261 Avoid breathing dust. P273 Avoid release to the environment. P284 Wear respiratory protection. | | | |

| VersionRevision Date:SDS Number:Date of last issue: 06.07.20245.128.09.20241161157-00020Date of first issue: 19.12.2019 | |
|---|--|
|---|--|

Response:

P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P342 + P311 If experiencing respiratory symptoms: Call a POISON CENTER/ doctor. P391 Collect spillage.

Other hazards which do not result in classification

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form explosive dust-air mixture during processing, handling or other means.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture

: Mixture

Components

| Chemical name | CAS-No. | Classification | Concentration (% w/w) |
|------------------------|------------|---|-----------------------|
| Amoxicillin Trihydrate | 61336-70-7 | Resp. Sens., 1A Aquatic Acute, 1 Aquatic Chronic, 1 | >= 70 -< 90 |

SECTION 4. FIRST AID MEASURES

| General advice | : | In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical |
|---|---|--|
| If inhaled | : | advice. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention. |
| In case of skin contact | : | Wash with water and soap. Get medical attention if symptoms occur. |
| In case of eye contact | : | If in eyes, rinse well with water. Get medical attention if irritation develops and persists. |
| If swallowed | : | If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water. |
| Most important symptoms and effects, both acute and delayed | : | May cause allergy or asthma symptoms or breathing difficulties if inhaled. Excessive exposure may aggravate preexisting asthma and other respiratory disorders (e.g. emphysema, bronchitis, reactive airways dysfunction syndrome). Contact with dust can cause mechanical irritation or drying of the skin. |
| Protection of first-aiders | : | Dust contact with the eyes can lead to mechanical irritation. First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8). |
| Notes to physician | · | Treat symptomatically and supportively. |

SAFETY DATA SHEET

| Version 5.1 | Revision Date: 28.09.2024 | | OS Number: 61157-00020 | Date of last issue: 06.07.2024 Date of first issue: 19.12.2016 |

| | onal precautions, protec- | : | | tective equipment. |

| tive equipment and emer- gency procedures | • | Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8). |
|--|---|--|
| Environmental precautions | : | Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained. |
| Methods and materials for containment and cleaning up | : | Surround spill with absorbents and place a damp covering over the area to minimize entry of the material into the air. Add excess liquid to allow the material to enter into solution. Soak up with inert absorbent material. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and |
