### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Bacillus 5 Formulation

Product code : PondPlus®, PROQUATIC PONDPLUS, Crab Plus

#### Manufacturer or supplier's details

Company : MSD

Address : No. 485 Jing Tai Road  
Pu Tuo District - Shanghai - China 200331

Telephone : +1-908-740-4000

Emergency telephone number : 86-571-87268110

E-mail address : EHSDATASTEWARD@msd.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Veterinary product

Restrictions on use : Not applicable

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |                           |
|------------|---------------------------|
| Appearance | : powder                  |
| Colour     | : light brown, dark brown |
| Odour      | : No data available       |

Not a hazardous substance or mixture.

#### GHS Classification

|| Not a hazardous substance or mixture.

#### GHS label elements

|| No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

#### Physical and chemical hazards

Not classified based on available information.

#### Health hazards

Not classified based on available information.

#### Environmental hazards

Not classified based on available information.

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Bacillus 5 Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue:             |
| 3.0     | 2025/04/14     | 11482499-00003 | 2024/12/20                      |
|         |                |                | Date of first issue: 2024/12/17 |

### Other hazards which do not result in classification

Dust contact with the eyes can lead to mechanical irritation.  
Contact with dust can cause mechanical irritation or drying of the skin.  
May form explosive dust-air mixture during processing, handling or other means.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

### Components

| Chemical name              | CAS-No.      | Concentration (% w/w) |
|----------------------------|--------------|-----------------------|
| Bacillus licheniformis     | 68038-66-4   | $\geq 0.1$ - $< 1$    |
| Bacillus amyloliquefaciens | 68038-60-8   | $< 0.1$               |
| Bacillus subtilis          | 68038-70-0   | $< 0.1$               |
| Bacillus pumilus           | 1383428-50-9 | $< 0.1$               |
| Bacillus megaterium        | 68038-67-5   | $< 0.1$               |

## 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                          |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : In the case of accident or if you feel unwell, seek medical advice immediately.<br>When symptoms persist or in all cases of doubt seek medical advice. |
| If inhaled                                                  | : If inhaled, remove to fresh air.<br>Get medical attention if symptoms occur.                                                                           |
| In case of skin contact                                     | : Wash with water and soap.<br>Get medical attention if symptoms occur.                                                                                  |
| In case of eye contact                                      | : If in eyes, rinse well with water.<br>Get medical attention if irritation develops and persists.                                                       |
| If swallowed                                                | : If swallowed, DO NOT induce vomiting.<br>Get medical attention if symptoms occur.<br>Rinse mouth thoroughly with water.                                |
| Most important symptoms and effects, both acute and delayed | : Contact with dust can cause mechanical irritation or drying of the skin.<br>Dust contact with the eyes can lead to mechanical irritation.              |
| Protection of first-aiders                                  | : No special precautions are necessary for first aid responders.                                                                                         |
| Notes to physician                                          | : Treat symptomatically and supportively.                                                                                                                |

## 5. FIREFIGHTING MEASURES

|                                       |                                                                                                                                  |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media          | : Water spray<br>Alcohol-resistant foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry chemical                                     |
| Unsuitable extinguishing media        | : None known.                                                                                                                    |
| Specific hazards during fire-fighting | : Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a |

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Bacillus 5 Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue:             |
| 3.0     | 2025/04/14     | 11482499-00003 | 2024/12/20                      |
|         |                |                | Date of first issue: 2024/12/17 |

- potential dust explosion hazard.  
Exposure to combustion products may be a hazard to health.
- Hazardous combustion products : Carbon oxides  
Nitrogen oxides (NOx)
- Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.
- Special protective equipment for firefighters : Wear self-contained breathing apparatus for firefighting if necessary.  
Use personal protective equipment.

## 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures : Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
- Environmental precautions : Avoid release to the environment.  
Prevent further leakage or spillage if safe to do so.  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.
- Methods and materials for containment and cleaning up : Sweep up or vacuum up spillage and collect in suitable container for disposal.  
Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).  
Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

## 7. HANDLING AND STORAGE

### Handling

- Technical measures : Static electricity may accumulate and ignite suspended dust causing an explosion.

| Version | Revision Date: | SDS Number:    | Date of last issue: 2024/12/20  |
| 3.0     | 2025/04/14     | 11482499-00003 | Date of first issue: 2024/12/17 |

|                             |   |                                                                                                                                  |
|-----------------------------|---|----------------------------------------------------------------------------------------------------------------------------------|
| Local/Total ventilation     | : | Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.                                    |
| Advice on safe handling     | : | Use only with adequate ventilation.                                                                                              |
|                             | : | Do not breathe dust.                                                                                                             |
|                             | : | Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment |
|                             | : | Minimize dust generation and accumulation.                                                                                       |
|                             | : | Keep container closed when not in use.                                                                                           |
|                             | : | Keep away from heat and sources of ignition.                                                                                     |
|                             | : | Take precautionary measures against static discharges.                                                                           |
|                             | : | Take care to prevent spills, waste and minimize release to the environment.                                                      |
| Avoidance of contact        | : | Oxidizing agents                                                                                                                 |
| <b>Storage</b>              |   |                                                                                                                                  |
| Conditions for safe storage | : | Keep in properly labelled containers.                                                                                            |
|                             | : | Store in accordance with the particular national regulations.                                                                    |
| Materials to avoid          | : | Do not store with the following product types:                                                                                   |
|                             | : | Strong oxidizing agents                                                                                                          |
| Packaging material          | : | Unsuitable material: None known.                                                                                                 |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

|                             |   |                                                                                                                                                                                                     |
|-----------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering measures</b> | : | All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.                                 |
|                             | : | Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). |
|                             | : | Minimize open handling.                                                                                                                                                                             |

### Personal protective equipment

|                          |   |                                                                                                                                                                      |
|--------------------------|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : | If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection. |
| Filter type              | : | Particulates type                                                                                                                                                    |
| Eye/face protection      | : | Wear safety glasses with side shields or goggles.                                                                                                                    |
|                          | : | If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles.                                                      |
|                          | : | Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.                               |
| Skin and body protection | : | Work uniform or laboratory coat.                                                                                                                                     |
|                          | : | Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, dis-                                                |

posable suits) to avoid exposed skin surfaces.  
Use appropriate degowning techniques to remove potentially contaminated clothing.

Hand protection

Material : Chemical-resistant gloves

Remarks : Consider double gloving.

Hygiene measures : If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.  
When using do not eat, drink or smoke.  
Wash contaminated clothing before re-use.  
The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : powder

Colour : light brown, dark brown

Odour : No data available

Odour Threshold : No data available

pH : No data available

Melting point/freezing point : No data available

Initial boiling point and boiling range : No data available

Flash point : No data available

Evaporation rate : Not applicable

Flammability (solid, gas) : May form explosive dust-air mixture during processing, handling or other means.

Flammability (liquids) : Not applicable

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit : No data available

Vapour pressure : Not applicable

## Bacillus 5 Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue: 2024/12/20  |
| 3.0     | 2025/04/14     | 11482499-00003 | Date of first issue: 2024/12/17 |

|                                        |   |                                                          |
|----------------------------------------|---|----------------------------------------------------------|
| Relative vapour density                | : | Not applicable                                           |
| Relative density                       | : | No data available                                        |
| Density                                | : | 0.47 g/cm <sup>3</sup>                                   |
| Solubility(ies)                        | : |                                                          |
| Water solubility                       | : | insoluble                                                |
| Partition coefficient: n-octanol/water | : | Not applicable                                           |
| Auto-ignition temperature              | : | No data available                                        |
| Decomposition temperature              | : | No data available                                        |
| Viscosity                              | : |                                                          |
| Viscosity, kinematic                   | : | Not applicable                                           |
| Explosive properties                   | : | Not explosive                                            |
| Oxidizing properties                   | : | The substance or mixture is not classified as oxidizing. |
| Molecular weight                       | : | No data available                                        |
| Particle characteristics               | : |                                                          |
| Particle size                          | : | No data available                                        |

### 10. STABILITY AND REACTIVITY

|                                    |   |                                                                                                                            |
|------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : | Not classified as a reactivity hazard.                                                                                     |
| Chemical stability                 | : | Stable under normal conditions.                                                                                            |
| Possibility of hazardous reactions | : | May form explosive dust-air mixture during processing, handling or other means.<br>Can react with strong oxidizing agents. |
| Conditions to avoid                | : | Heat, flames and sparks.<br>Avoid dust formation.                                                                          |
| Incompatible materials             | : | Oxidizing agents                                                                                                           |
| Hazardous decomposition products   | : | No hazardous decomposition products are known.                                                                             |

### 11. TOXICOLOGICAL INFORMATION

|                 |   |                                                        |
|-----------------|---|--------------------------------------------------------|
| Exposure routes | : | Inhalation<br>Skin contact<br>Ingestion<br>Eye contact |
|-----------------|---|--------------------------------------------------------|

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Bacillus 5 Formulation

|         |                |                |                                 |
|---------|----------------|----------------|---------------------------------|
| Version | Revision Date: | SDS Number:    | Date of last issue: 2024/12/20  |
| 3.0     | 2025/04/14     | 11482499-00003 | Date of first issue: 2024/12/17 |

### Acute toxicity

Not classified based on available information.

### Components:

#### **Bacillus amyloliquefaciens :**

|                                               |                             |
|-----------------------------------------------|-----------------------------|
| Acute dermal toxicity                         | : LD50 (Rat): > 2,000 mg/kg |
| Remarks: Based on data from similar materials |                             |

### Skin corrosion/irritation

Not classified based on available information.

### Serious eye damage/eye irritation

Not classified based on available information.

### Respiratory or skin sensitisation

#### **Skin sensitisation**

Not classified based on available information.

#### **Respiratory sensitisation**

Not classified based on available information.

#### **Germ cell mutagenicity**

Not classified based on available information.

#### **Carcinogenicity**

Not classified based on available information.

#### **Reproductive toxicity**

Not classified based on available information.

#### **STOT - single exposure**

Not classified based on available information.

#### **STOT - repeated exposure**

Not classified based on available information.

#### **Aspiration toxicity**

Not classified based on available information.

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity

### Components:

#### **Bacillus amyloliquefaciens :**

|                                                     |                                                                              |
|-----------------------------------------------------|------------------------------------------------------------------------------|
| Toxicity to daphnia and other aquatic invertebrates | : EC50 (Daphnia magna (Water flea)): > 100 mg/l 2.16 x 10 <sup>9</sup> CFU/L |
| Exposure time: 48 h                                 |                                                                              |
| Remarks: Based on data from similar materials       |                                                                              |

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Bacillus 5 Formulation

|         |                |                |                                 |

| Version | Revision Date: | SDS Number:    | Date of last issue: 2024/12/20  |
| 3.0     | 2025/04/14     | 11482499-00003 | Date of first issue: 2024/12/17 |

|                                                                        |                                                                                                                                                             |
|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish (Chronic toxicity)                                    | : NOEC (Oncorhynchus mykiss (rainbow trout)): > 1 mg/l 1.72 x 10 <sup>9</sup> CFU/L<br>Exposure time: 30 d<br>Remarks: Based on data from similar materials |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia magna (Water flea)): > 1 x 10 <sup>5</sup> CFU/mL<br>Exposure time: 21 d<br>Remarks: Based on data from similar materials                   |

### Persistence and degradability

#### Product:

Biodegradability : Remarks: Inherently biodegradable.

### Bioaccumulative potential

No data available

### Mobility in soil

No data available

### Other adverse effects

No data available

## 13. DISPOSAL CONSIDERATIONS

### Disposal methods

|                        |                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste from residues    | : Do not dispose of waste into sewer.<br>Dispose of in accordance with local regulations.                                                                     |
| Contaminated packaging | : Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>If not otherwise specified: Dispose of as unused product. |
