#### 2. HAZARDS IDENTIFICATION

GHS Classification Serious eye damage/eye irri- tation	:	Category 2A
Reproductive toxicity	:	Category 1B
Specific target organ toxicity - repeated exposure	:	Category 1 (Pituitary gland, Immune system, muscle, thymus gland, Blood, Adrenal gland)
Long-term (chronic) aquatic hazard	:	Category 1
GHS label elements		
Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	H319 Causes serious eye irritation. H360D May damage the unborn child. H372 Causes damage to organs (Pituitary gland, Immune sys- tem, muscle, thymus gland, Blood, Adrenal gland) through pro- longed or repeated exposure.

Version 4.0	Revision Date: 2024/07/06	SDS Number: 5344794-00012	Date of last issue: 2024/04/06 Date of first issue: 2019/12/09
		H410 Very tox	ic to aquatic life with long lasting effects.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

Chemical name	CAS-No.	Concentration (% w/w)
Propan-2-ol	67-63-0	>= 10 -< 20
Methyl p-Hydroxybenzoate	99-76-3	>= 0.25 -< 2.5
Gentamicin	1403-66-3	>= 0.025 -< 0.25
betamethasone	378-44-9	>= 0.025 -< 0.25

#### 4. FIRST AID MEASURES

General advice	: In the case of accident or if you feel unwell, seek medical advice immediately.	
	When symptoms persist or in all cases of doubt seek medical advice.	
If inhaled	: If inhaled, remove to fresh air.	

Version 4.0	Revision Date: 2024/07/06		0S Number: 44794-00012	Date of last issue: 2024/04/06 Date of first issue: 2019/12/09			
In	case of skin contact	:	of water.	tion. , immediately flush skin with soap and plenty nated clothing and shoes.			
In	case of eye contact	:	Get medical atten Wash clothing be Thoroughly clean In case of contact for at least 15 min	tion. fore reuse. shoes before reuse. , immediately flush eyes with plenty of water putes. ove contact lens, if worn.			
lf s	swallowed	:		NOT induce vomiting.			
an	ost important symptoms d effects, both acute and layed	:	Rinse mouth thore Causes serious e May damage the Causes damage t	bughly with water. ye irritation.			
Pro	Protection of first-aiders		exposure. First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment				
Nc	tes to physician	:	when the potential for exposure exists (see section 8). Treat symptomatically and supportively.				
5. FIRE	FIGHTING MEASURES						
Su	itable extinguishing media	:	Water spray Alcohol-resistant Carbon dioxide (C Dry chemical				
	suitable extinguishing edia	:	None known.				
Sp	ecific hazards during fire- hting	:	Exposure to comb	pustion products may be a hazard to health.			
	zardous combustion prod-	:	Carbon oxides				
Sp od	ecific extinguishing meth- s	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do			
	ecial protective equipment firefighters	:	Evacuate area. In the event of fire	e, wear self-contained breathing apparatus. ective equipment.			
6. ACC	IDENTAL RELEASE MEAS	SUF	RES				
tive	rsonal precautions, protec- e equipment and emer- ncy procedures	•	Follow safe handl	ective equipment. ing advice (see section 7) and personal pro- recommendations (see section 8).			

geney procedures	
Environmental precautions	: Avoid release to the environment. Prevent further leakage or spillage if safe to do so.

Version 4.0	Revision Date: 2024/07/06	SDS Number: 5344794-00012	Date of last issue: 2024/04/06 Date of first issue: 2019/12/09
		barriers). Retain and disp	ing over a wide area (e.g. by containment or oil pose of contaminated wash water. s should be advised if significant spillages ained.

#### **Biological occupational exposure limits**

Components	CAS-No.	Control parameters	Biological specimen	Sam- pling time	Permissible concentra- tion	Basis
Propan-2-ol	67-63-0	Acetone	Urine	End of shift at end of work- week	40 mg/l	ACGIH BEI

Engineering measures : All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Essentially no open handling permitted. Use closed processing systems or containment technologies. If handled in a laboratory, use a properly designed biosafety cabinet, fume hood, or other containment device if the potential exists for aerosolization. If this potential does not exist, handle over lined trays or benchtops.

#### Personal protective equipment

Respiratory protection Filter type Hand protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Combined particulates and organic vapour type
Material	:	Chemical-resistant gloves
Remarks Eye protection	:	Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
Skin and body protection	:	Work uniform or laboratory coat.

#### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 15. REGULATORY INFORMATION

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

Minister of Industry Regulation No. 23/M-IND/PER/4/2013 concerning the Revision of Minister of Industry Regulation No. 87/M-IND/PER/9/2009 concerning Globally Harmonized System of Classification and Labelling of Chemicals.

# Regulation of the Minister of Health No. 472 of 1996 on the Safeguarding of Substances Hazardous to Health

Hazardous substances that must be registered

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
