Deltamethrin (2.5%) Formulation

| Version | Revision Date: | SDS Number: | Date of last issue: 06.04.2024 |
|---------|----------------|---------------|---------------------------------|
| 6.0 | 13.09.2024 | 9374089-00009 | Date of first issue: 27.08.2021 |

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1 | Product identifier Trade name | : | Deltamethrin (2.5%) Formulation |
|-----|--|------|---|
| 1.2 | Relevant identified uses of th | ne s | ubstance or mixture and uses advised against |
| | Use of the Sub- stance/Mixture | | Veterinary product |
| | Recommended restrictions on use | : | Not applicable |
| 1.3 | Details of the supplier of the | saf | ety data sheet |
| | Company | : | MSD Walton Manor, Walton MK7 7AJ Milton Keynes - United Kingdom |
| | Telephone | : | +1-908-740-4000 |
| | E-mail address of person responsible for the SDS | : | EHSDATASTEWARD@msd.com |

1.4 Emergency telephone number

+1-908-423-6000

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

| Flammable liquids, Category 3 Skin irritation, Category 2 Serious eye damage, Category 1 Skin sensitisation, Category 1 | H226: Flammable liquid and vapour. H315: Causes skin irritation. H318: Causes serious eye damage. H317: May cause an allergic skin reaction. |
|--|---|
| Germ cell mutagenicity, Category 1B | H340: May cause genetic defects. |
| Carcinogenicity, Category 1B | H350: May cause cancer. |
| Reproductive toxicity, Category 2 | H361: Suspected of damaging fertility or the un- born child. |
| Specific target organ toxicity - single ex- posure, Category 3 | H336: May cause drowsiness or dizziness. |
| Specific target organ toxicity - repeated exposure, Category 2 Aspiration hazard, Category 1 | H373: May cause damage to organs through pro- longed or repeated exposure. H304: May be fatal if swallowed and enters air- ways. |

UK REACH Regulations SI 2019/758

| 6.0 | 13.09.2024 | 9374089-00009 | Date of first issue: 27.08.2021 |

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative tive and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Cutaneous sensations may occur, such as burning or stinging on the face and mucosae. However, these sensations cause no lesions and are of a transitory nature (max. 24 hours). Vapours may form explosive mixture with air.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

| Chemical name | CAS-No. EC-No. Index-No. Registration number | Classification | Concentration (% w/w) |

SECTION 4: First aid measures

4.1 Description of first aid measures

| General advice : | In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice. |
|------------------------------|--|
| Protection of first-aiders : | First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8). |
| If inhaled : | If inhaled, remove to fresh air. Get medical attention. |
| In case of skin contact : | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse. |
| In case of eye contact : | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention immediately. |

| Version 6.0 | Revision Date: 13.09.2024 | | DS Number: 374089-00009 | Date of last issue: 06.04.2024 Date of first issue: 27.08.2021 | | |
|----------------|------------------------------|---|--|---|--|--|
| If swallowed | | : | If swallowed, DO NOT induce vomiting. If vomiting occurs have person lean forward. Call a physician or poison control centre immediately. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person | | | |
| 4.2 Most i | important symptoms a | nd | effects, both acute | e and delayed | | |
| Risks | | : | May be fatal if swallowed and enters airways. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause drowsiness or dizziness. May cause genetic defects. May cause cancer. Suspected of damaging fertility or the unborn child. May cause damage to organs through prolonged or repeate exposure. This product contains a pyrethroid. Pyrethroid poisoning should not be confused with carbamate | | | |
| | | | or organophosphate poisoning. | | | |
| 4.3 Indica | tion of any immediate | me | dical attention and | d special treatment needed | | |
| Treat | ment | : | Treat symptomat | ically and supportively. | | |
| SECTION | N 5: Firefighting mea | sur | es | | | |
| 5.1 Extino | guishing media | | | | | |
| - | ble extinguishing media | dia : Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical | | | | |
| Unsu | itable extinguishing | : High volume water jet | | | | |

5.2 Special hazards arising from the substance or mixture

media

| Specific hazards during fire- fighting | Do not use a solid water stream as it may scatter and spread fire. Flash back possible over considerable distance. Vapours may form explosive mixtures with air. Exposure to combustion products may be a hazard to health. |
|---|--|
| Hazardous combustion prod- ucts | : Carbon oxides Nitrogen oxides (NOx) Bromine compounds Sulphur oxides Metal oxides |

| Version 6.0 | Revision Date: 13.09.2024 | | DS Number: 74089-00009 | Date of last issue: 06.04.2024 Date of first issue: 27.08.2021 | |
|--|------------------------------|---|--|--|--|
| 5.3 Advic | e for firefighters | | | | |
| Special protective equipment for firefighters | | : | : In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. | | |
| Specific extinguishing meth- ods | | : | cumstances and t Use water spray t | g measures that are appropriate to local cir- the surrounding environment. to cool unopened containers. ged containers from fire area if it is safe to do | |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | : | Remove all sources of ignition. Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8). |
|-------------------------------|---|--|
| 6.2 Environmental precautions | | |
| Environmental precautions | : | Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). |

Retain and dispose of contaminated wash water.

If spillage enters rivers or watercourses, inform the Environment Agency (emergency telephone number 0800 807060).

6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Non-sparking tools should be used. Soak up with inert absorbent material. Suppress (knock down) gases/vapours/mists with a water spray jet. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- |
|-------------------------|---|---|
| | | employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements. |

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Deltamethrin (2.5%) Formulation

SECTION 7: Handling and storage

7.1 Precautions for safe handling **Technical measures** See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. If sufficient ventilation is unavailable, use with local exhaust Local/Total ventilation : ventilation. Use explosion-proof electrical, ventilating and lighting equipment. Advice on safe handling Do not get on skin or clothing. : Do not breathe mist or vapours. Do not swallow. Do not get in eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment Non-sparking tools should be used. Keep container tightly closed. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharges. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment. If exposure to chemical is likely during typical use, provide eye Hygiene measures flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. 7.2 Conditions for safe storage, including any incompatibilities Keep in properly labelled containers. Store locked up. Keep Requirements for storage tightly closed. Keep in a cool, well-ventilated place. Store in areas and containers accordance with the particular national regulations. Keep away from heat and sources of ignition. Do not store with the following product types: Advice on common storage Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Flammable solids Pyrophoric liquids

7/33

Self-heating substances and mixtures

8.2 Exposure controls

Engineering measures

Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip-less quick connections).

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

Minimize open handling.

Use explosion-proof electrical, ventilating and lighting equipment.

1

Personal protective equipment

Eye/face protection

Wear safety glasses with side shields or goggles.

If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Aspiration toxicity

May be fatal if swallowed and enters airways.

Product:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Components:

Solvent naphtha (petroleum), light aromatic:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Experience with human exposure

Components:

deltamethrin (ISO):

| Inhalation | : | Symptoms: respiratory tract irritation, Dizziness, Sweating, |

12.5 Results of PBT and vPvB assessment

| Dr | od | | 4. |
|----|----|-----|----|
| ГІ | ou | uuu | ι. |

| Assessment | : | This substance/mixture contains no components considered |
|------------|---|--|
| | | to be either persistent, bioaccumulative and toxic (PBT), or |
| | | very persistent and very bioaccumulative (vPvB) at levels of |
| | | 0.1% or higher. |

12.6 Other adverse effects

Product:

| Endocrine disrupting poten- tial | : | This substance/mixture contains components considered to have endocrine disrupting properties for environment according to LIK REACH Article 57(f) |
|-------------------------------------|---|--|
| | | ing to UK REACH Article 57(f). |

Components:

4-Nonylphenol, branched, ethoxylated:

| Endocrine disrupting poten- tial | : | The substance is considered to have endocrine disrupting properties according to UK REACH Article 57(f) for environment |

SECTION 13: Disposal considerations

13.1 Waste treatment methods

| Product | Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities. Do not dispose of waste into sewer. |
|------------------------|--|
| Contaminated packaging | Empty containers should be taken to an approved waste han- dling site for recycling or disposal. Empty containers retain residue and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or ex- pose such containers to heat, flame, sparks, or other sources of ignition. They may explode and cause injury and/or death. If not otherwise specified: Dispose of as unused product. |

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
