Commission Regulation (EU) 2020/878

Deltamethrin (5%) Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 06.07.2024
8.1	28.09.2024	2334772-00023	Date of first issue: 12.12.2017

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier Trade name	:	Deltamethrin (5%) Formulation
1.2	Relevant identified uses of th	ne s	ubstance or mixture and uses advised against
	Use of the Sub- stance/Mixture	:	Veterinary product
	Recommended restrictions on use	:	Not applicable
1.3	Details of the supplier of the	saf	ety data sheet
	Company	:	MSD Kilsheelan Clonmel Tipperary, IE
	Telephone	:	353-51-601000
	E-mail address of person responsible for the SDS	:	EHSDATASTEWARD@msd.com

1.4 Emergency telephone number

+1-908-423-6000

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 3 Acute toxicity, Category 4 Skin irritation, Category 2 Serious eye damage, Category 1 Skin sensitisation, Category 1	H226: Flammable liquid and vapour. H302: Harmful if swallowed. H315: Causes skin irritation. H318: Causes serious eye damage. H317: May cause an allergic skin reaction.
Reproductive toxicity, Category 2	H361fd: Suspected of damaging fertility. Suspected of damaging the unborn child.
Specific target organ toxicity - single ex- posure, Category 3	H336: May cause drowsiness or dizziness.
Specific target organ toxicity - single ex- posure, Category 3	H335: May cause respiratory irritation.
Specific target organ toxicity - repeated exposure, Category 2	H373: May cause damage to organs through pro- longed or repeated exposure.
Aspiration hazard, Category 1	H304: May be fatal if swallowed and enters air- ways.
Short-term (acute) aquatic hazard, Cate-	H400: Very toxic to aquatic life.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Deltamethrin (5%) Formulation

ersion 1	Revision Date: 28.09.2024	SDS Number: 2334772-00023	Date of last issue: 06.07.2024 Date of first issue: 12.12.2017
egory	-term (chronic) aquat	ic hazard, Cat- H41 effec	0: Very toxic to aquatic life with long lasting cts.

Benzenesulfonic acid, C10-13-alkyl derivs., calcium salts 2-Methyl-1-propanol deltamethrin (ISO)

Deltamethrin (5%) Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 06.07.2024
8.1	28.09.2024	2334772-00023	Date of first issue: 12.12.2017

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Cutaneous sensations may occur, such as burning or stinging on the face and mucosae. However, these sensations cause no lesions and are of a transitory nature (max. 24 hours). Vapours may form explosive mixture with air.

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	 In the case of accident or if you feel unwell, seek medical ad vice immediately. When symptoms persist or in all cases of doubt seek medica advice. 	
Protection of first-aiders	: First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).	
If inhaled	: If inhaled, remove to fresh air. Get medical attention.	
In case of skin contact	 In case of contact, immediately flush skin with plenty of wate for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse. 	
In case of eye contact	 In case of contact, immediately flush eyes with plenty of wate for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention immediately. 	er
If swallowed	: If swallowed, DO NOT induce vomiting.	

Deltamethrin (5%) Formulation

Version 8.1	Revision Date: 28.09.2024	SDS Number: 2334772-00023	Date of last issue: 06.07.2024 Date of first issue: 12.12.2017
4.2 Most i	important symptoms	Call a physician Rinse mouth the Never give anyt	rs have person lean forward. or poison control centre immediately. proughly with water. hing by mouth to an unconscious person.
Risks		: Harmful if swall May be fatal if s Causes skin irri May cause an a Causes serious May cause resp May cause drow Suspected of da unborn child.	owed. wallowed and enters airways. tation. Illergic skin reaction.
			ntains a pyrethroid. oning should not be confused with carbamate hate poisoning.
4.3 Indica Treat	-		nd special treatment needed atically and supportively.

SECTION 5: Firefighting measures

5.1	Extinguishing media Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
	Unsuitable extinguishing media	:	High volume water jet
5.2	Special hazards arising from	the	e substance or mixture
	Specific hazards during fire- fighting	:	Do not use a solid water stream as it may scatter and spread fire. Flash back possible over considerable distance. Vapours may form explosive mixtures with air. Exposure to combustion products may be a hazard to health.
	Hazardous combustion prod- ucts	:	Carbon oxides Nitrogen oxides (NOx) Bromine compounds Sulphur oxides Metal oxides

Deltamethrin (5%) Formulation

Version 8.1	Revision Date: 28.09.2024			Date of last issue: 06.07.2024 Date of first issue: 12.12.2017		
	for firefighters					
Special protective equipment for firefighters		:	: In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.			
Specif ods	Specific extinguishing meth- ods		cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do		

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	Remove all sources of ignition. Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
6.2 Environmental precautions		
Environmental precautions	:	Avoid release to the environment.

cannot be contained.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up		Non-sparking tools should be used.
Methods for oleaning up	•	Soak up with inert absorbent material.
		Suppress (knock down) gases/vapours/mists with a water
		spray jet.
		For large spills, provide dyking or other appropriate contain-
		ment to keep material from spreading. If dyked material can
		be pumped, store recovered material in appropriate container.
		Clean up remaining materials from spill with suitable absor-
		bent.
		Local or national regulations may apply to releases and dis-
		posal of this material, as well as those materials and items
		employed in the cleanup of releases. You will need to deter-
		mine which regulations are applicable.
		Sections 13 and 15 of this SDS provide information regarding
		certain local or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Deltamethrin (5%) Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 06.07.2024

SECTION 7: Handling and storage

7.1 Precautions for safe handling Technical measures : See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. Local/Total ventilation If sufficient ventilation is unavailable, use with local exhaust : ventilation. Use explosion-proof electrical, ventilating and lighting equipment. Advice on safe handling Do not get on skin or clothing. 1 Do not breathe mist or vapours. Do not swallow. Do not get in eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment Non-sparking tools should be used. Keep container tightly closed. Already sensitised individuals, and those susceptible to asthma, allergies, chronic or recurrent respiratory disease, should consult their physician regarding working with respiratory irritants or sensitisers. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharges. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment. Hygiene measures If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. 7.2 Conditions for safe storage, including any incompatibilities Pequirements for storage Keep in properly labelled containers. Store locked up, Keep

areas and containers	•	tightly closed. Keep in a cool, well-ventilated place. Store in accordance with the particular national regulations. Keep away from heat and sources of ignition.
Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Flammable solids Pyrophoric liquids

	Freshwater - intermittent	6,35 mg/l
	Marine water	0,0635 mg/l
	Sewage treatment plant	100 mg/l
	Fresh water sediment	3,29 mg/kg dry weight (d.w.)
	Marine sediment	0,329 mg/kg dry weight (d.w.)
	Soil	0,29 mg/kg dry weight (d.w.)

8.2 Exposure controls

Engineering measures

Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip-less quick connections).

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Deltamethrin (5%) Formulation

Vers 8.1	ion	Revision Date: 28.09.2024		OS Number: 34772-00023	Date of last issue: 06.07.2024 Date of first issue: 12.12.2017				
	Minimize open handling. Use explosion-proof electrical, ventilating and lighting equipment.								
	Persor	nal protective equipm	ent						
	Eye/face protection :		:	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.					
	Hand protection								
	Material		:	Chemical-resistant gloves					
	Ren	narks	:		gloving. Take note that the product is flam- / impact the selection of hand protection.				
	Skin ar	nd body protection	:	Work uniform or la Additional body ga being performed (suits) to avoid exp	aboratory coat. arments should be used based upon the task e.g., sleevelets, apron, gauntlets, disposable bosed skin surfaces. legowning techniques to remove potentially				
	Respira	atory protection	:	If adequate local e sure assessment ommended guide	exhaust ventilation is not available or expo- demonstrates exposures outside the rec- lines, use respiratory protection.				
	Filte	er type	:		l conform to NS EN 14387 lates and organic vapour type (A-P)				

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	liquid
Colour	:	yellow
Odour	:	No data available
Odour Threshold	:	No data available
Melting point/freezing point	:	No data available
Initial boiling point and boiling range	:	No data available
Flammability (solid, gas)	:	Not applicable
Flammability (liquids)	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available

Lower explosion limit / Lower : No data available

Aspiration toxicity

May be fatal if swallowed and enters airways.

Product:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Components:

Hydrocarbons, C9, aromatics:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

2-Methyl-1-propanol:

The substance or mixture causes concern owing to the assumption that it causes a human aspiration toxicity hazard.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	 Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities. Do not dispose of waste into sewer.
Contaminated packaging	 Empty containers should be taken to an approved waste han- dling site for recycling or disposal. Empty containers retain residue and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or ex- pose such containers to heat, flame, sparks, or other sources of ignition. They may explode and cause injury and/or death. If not otherwise specified: Dispose of as unused product.

Other regulations:

Note the Working Environment Act § 4-1 and § 4-2 on requirements for the employer to protect pregnant employees against discomfort and injury as a result of the work situation and the working environment.

Note the regulation on organization, leadership and participation, chapter 12 on the work of children and young people.

The components of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined

15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

H335

Other information	:	Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.
Full text of H-Statements		
H226	:	Flammable liquid and vapour.
H301	:	Toxic if swallowed.
H304	:	May be fatal if swallowed and enters airways.
H315	:	Causes skin irritation.
H317	:	May cause an allergic skin reaction.
H318	:	Causes serious eye damage.
H319	:	Causes serious eye irritation.
H331	:	Toxic if inhaled.

- Toxic if inhaled. ÷
- May cause respiratory irritation. 2

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878
