<ul> <li>H319 Causes serious eye irritation.</li> <li>H372 Causes damage to organs (ear, Kidney, inner ea through prolonged or repeated exposure if swallowed.</li> </ul>			
i <b>on:</b> not breathe mist or vapours. ash skin thoroughly after handling. not eat, drink or smoke when using this produ ear eye protection/ face protection.			

Version	Revision Date:	SDS Number:	Date of last issue: 30.09.2023
1.9	06.04.2024	5918689-00010	Date of first issue: 20.05.2020

#### **Response:**

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P314 Get medical advice/ attention if you feel unwell. P337 + P313 If eye irritation persists: Get medical advice/ attention.

#### Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

### Other hazards which do not result in classification

None known.

#### Section 3: Composition/information on ingredients

Substance / Mixture : Mixture

#### Components

•		
Chemical name	CAS-No.	Concentration (% w/w)
Dihydrostreptomycin sulphate	5490-27-7	>= 30 -< 50
Sodium metabisulphite	7681-57-4	>= 1 -< 3

#### **Section 4: First-aid measures**

#### Description of necessary first-aid measures

General advice	<ul> <li>In the case of accident or if you feel unwell, seek medical advice immediately.</li> <li>When symptoms persist or in all cases of doubt seek medical advice.</li> </ul>
If inhaled	<ul> <li>If inhaled, remove to fresh air.</li> <li>Get medical attention if symptoms occur.</li> </ul>
In case of skin contact	: Wash with water and soap as a precaution. Get medical attention if symptoms occur.
In case of eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
	If easy to do, remove contact lens, if worn. Get medical attention.
If swallowed	<ul> <li>If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur.</li> </ul>
	Rinse mouth thoroughly with water.
Most important symptoms an	d effects, both acute and delayed
Risks	: Causes serious eye irritation.
	Causes damage to organs through prolonged or repeated exposure if swallowed.
Protection of first-aiders	: First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).

Version 1.9	Revision Date: 06.04.2024	SDS Number: 5918689-00010	Date of last issue: 30.09.2023 Date of first issue: 20.05.2020				
Treat	ment	: Treat sympt	on and special treatment needed omatically and supportively.

Local or national posal of this mat employed in the mine which regu Sections 13 and	ing materials from spill with suitable absor- l regulations may apply to releases and dis- cerial, as well as those materials and items cleanup of releases. You will need to deter- lations are applicable. 15 of this SDS provide information regarding national requirements.

#### Section 7: Handling and storage

Precautions for safe handling	
Technical measures :	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation : Advice on safe handling :	Use only with adequate ventilation. Do not breathe mist or vapours. Do not swallow. Do not get in eyes. Avoid prolonged or repeated contact with skin. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures :	Do not breathe decomposition products. If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
Conditions for safe storage, in	cluding any incompatibilities
Conditions for safe storage :	Keep in properly labelled containers. Store in accordance with the particular national regulations.
Materials to avoid :	Do not store with the following product types: Strong oxidizing agents

#### Section 8: Exposure controls/personal protection

#### **Control parameters**

Occupational Exposure Limits

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
