According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 06.04.2024
5.1	28.09.2024	9374258-00008	Date of first issue: 27.08.2021

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier Trade name	:	Dinoprost Formulation		
1.2	Relevant identified uses of th	ne s	substance or mixture and uses advised against		
	Use of the Sub- stance/Mixture		Veterinary product		
	Recommended restrictions on use	:	Not applicable		
1.3	1.3 Details of the supplier of the safety data sheet				
	Company	:	MSD Walton Manor, Walton MK7 7AJ Milton Keynes - United Kingdom		
	Telephone	:	+1-908-740-4000		
	E-mail address of person responsible for the SDS	:	EHSDATASTEWARD@msd.com		

1.4 Emergency telephone number

+1-908-423-6000

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Reproductive toxicity, Category 1A

H360D: May damage the unborn child.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Hazard pictograms	:		
Signal word	:	Danger	
Hazard statements	:	H360D	May damage the unborn child.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Version 5.1	Revision Date: 28.09.2024	SDS Number: 9374258-00008	Date of last issue: 06.04.2024 Date of first issue: 27.08.2021
Preca	utionary statements	: Prevention:	
		P280	Obtain special instructions before use. Wear protective gloves/ protective clothing/ eye protection/ face protection.
		Response: P308 + P313	IF exposed or concerned: Get medical advice/ attention.
		Storage: P405	Store locked up.

Hazardous components which must be listed on the label: Dinoprost

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
Dinoprost	551-11-1	Acute Tox. 4; H302 Eye Irrit. 2; H319 Repr. 1A; H360D STOT SE 1; H370 (Reproductive or- gans) STOT RE 1; H372 (Reproductive or- gans)	>= 0.3 - < 1

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice

: In the case of accident or if you feel unwell, seek medical advice immediately.

When symptoms persist or in all cases of doubt seek medical advice.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Version 5.1	Revision Date: 28.09.2024	SDS Number 9374258-000			
Protection of first-aiders		and use t	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).		
lf inha	aled		remove to fresh air. cal attention.		
In case of skin contact : In case of contact, immediately flush skin with of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.		cal attention. hing before reuse.			
In cas	se of eye contact		s with water as a precaution. cal attention if irritation develops and persists.		
lf swa	allowed	Get medie	ed, DO NOT induce vomiting. cal attention. uth thoroughly with water.		
4.2 Most i	mportant symptoms	and effects, bot	th acute and delayed		
	Risks		age the unborn child.		
4.3 Indica	tion of any immediat	e medical atten	tion and special treatment needed		
Treat	ment	: Treat sym	ptomatically and supportively.		
5.1 Exting	N 5: Firefighting me guishing media				

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing	:	None known.

5.2 Special hazards arising from the substance or mixture

		Cathon avideo
Specific hazards during fire- fighting	:	Exposure to combustion products may be a hazard to health.

Hazardous combustion prod-	:	Carbon oxides
ucts		Metal oxides

5.3 Advice for firefighters

media

Special protective equipment	:	In the event of fire, wear self-contained breathing apparatus.
for firefighters		Use personal protective equipment.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Version	Revision Date: 28.09.2024	SDS Number:	Date of last issue: 06.04.2024
5.1		9374258-00008	Date of first issue: 27.08.2021
Speci ods	fic extinguishing meth-	cumstances an Use water spra	ng measures that are appropriate to local cir- d the surrounding environment. y to cool unopened containers. naged containers from fire area if it is safe to do

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures			
Personal precautions	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).	
6.2 Environmental precautions			
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. If spillage enters rivers or watercourses, inform the Environ- ment Agency (emergency telephone number 0800 807060).	
6.3 Methods and material for con	itai	nment and cleaning up	
Methods for cleaning up	:	Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.	

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	: See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	: If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	: Do not get on skin or clothing.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Do not breathe vapours or spra	ıy mist.
Do not swallow.Avoid contact with eyes.Handle in accordance with goodpractice, based on the results ofsessmentKeep container tightly closed.Take care to prevent spills, wasenvironment.If exposure to chemical is likelyflushing systems and safety shotplace. When using do not eat, ofnated clothing before re-use.The effective operation of a factengineering controls, proper peappropriate degowning and dedindustrial hygiene monitoring, muse of administrative controls.	d industrial hygiene and safety of the workplace exposure as- ste and minimize release to the during typical use, provide eye owers close to the working drink or smoke. Wash contami- ility should include review of ersonal protective equipment, contamination procedures,
7.2 Conditions for safe storage, including any incompatibilities	
Requirements for storage : Keep in properly labelled conta areas and containers : Kiep in properly labelled conta tightly closed. Store in accordat regulations.	
Advice on common storage : Do not store with the following Strong oxidizing agents Self-reactive substances and m Organic peroxides Explosives Gases	
7.3 Specific end use(s)	
Specific use(s) : No data available	

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Dinoprost	551-11-1	TWA	0.1 μg/m3 (OEB 5)	Internal
		Wipe limit	1 µg/100 cm2	Internal

8.2 Exposure controls

Engineering measures

Use closed processing systems or containment technologies to control at source (e.g., glove boxes/isolators) and to prevent leakage of compounds into the workplace.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 06.04.2024
5.1	28.09.2024	9374258-00008	Date of first issue: 27.08.2021

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. No open handling permitted.

Totally enclosed processes and materials transport systems are required. Operations require the use of appropriate containment technology designed to prevent leakage of compounds into the workplace.

nent	
:	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
:	Chemical-resistant gloves
:	Consider double gloving. Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.
:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Equipment should conform to BS EN 143 Particulates type (P)
	:

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance Colour Odour Odour Threshold	::	liquid colourless No data available No data available
рН	:	6.5 - 7.5
Melting point/freezing point	:	No data available
Initial boiling point and boiling	:	No data available
range Flash point	:	No data available
Evaporation rate	:	No data available
Flammability (solid, gas)	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Other information : Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.

Full text of H-Statements

H302	:	Harmful if swallowed.
H319	:	Causes serious eye irritation.
H360D	:	May damage the unborn child.
H370	:	Causes damage to organs if swallowed.
H372	:	Causes damage to organs through prolonged or repeated
		exposure if swallowed.

Full text of other abbreviations

Acute Tox. :	Acute toxicity
Eye Irrit. :	Eye irritation
Repr. :	Reproductive toxicity
STOT RE :	Specific target organ toxicity - repeated exposure
STOT SE :	Specific target organ toxicity - single exposure

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008: CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA -European Chemicals Agency; EC-Number - European Community number; ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance: PICCS - Philippines Inventory of Chemicals and Chemical Substances: (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID - Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - Substance of very high concern; TCSI - Taiwan Chemical Substance Inventory; TECI -

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Dinoprost Formulation

Classification of the mixture:

Classification procedure: Calculation method

Repr. 1A

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
