## Section 4: First-aid measures

Description of necessary first-aid measures				
General advice	: In the case of accident or if you feel unwell, seek medical ad- vice immediately.			
	When symptoms persist or in all cases of doubt seek medical advice.			
If inhaled	: If inhaled, remove to fresh air. Get medical attention.			
In case of skin contact	: In case of contact, immediately flush skin with soap and plenty

		of water.		
			aminated clothing and shoes.	
		Get medical a		
			) before reuse. ean shoes before reuse.	
In case	e of eye contact	: Flush eyes wi	th water as a precaution.	
If swal	lowed		ttention if irritation develops and persists. DO NOT induce vomiting.	
11 5 Wai	lowed	Get medical a	3	
			horoughly with water.	
		Never give an	ything by mouth to an unconscious person.	
Most i	mportant symptoms a	and effects, both a	acute and delayed	
Risks			the unborn child.	
			mage to organs if swallowed. mage to organs through prolonged or repeate	
		exposure if sw	vallowed.	
Protection of first-aiders		: First Aid responders should pay attention to self-protect and use the recommended personal protective equipme when the potential for exposure exists (see section 8).		
Indica	tion of any immediate		n and special treatment needed	
Treatn	•		natically and supportively.	
ection 5:	Fire-fighting measure	s		
		•		
Exting	uishing media			
Suitab	le extinguishing media	: Water spray		
		Alcohol-resist		
		Carbon dioxid Dry chemical		
Unsuit	able extinguishing	: None known.		

## Special hazards arising from the substance or mixture

Specific hazards during fire-	:	Exposure to combustion products may be a hazard to health.
fighting Hazardous combustion prod- ucts	:	Carbon oxides

## Special protective actions for fire-fighters

media

Special protective equipment : for firefighters	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.
Specific extinguishing meth- : ods	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.

# **Doramectin Formulation**

Version 6.0	Revision Date: 06.07.2024	SDS Number: 5191220-00014	Date of last issue: 06.04.2024 Date of first issue: 22.10.2019	

#### Section 6: Accidental release measures

Personal precautions, protective eq Personal precautions :	<b>uipment and emergency procedures</b> Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	
Environmental precautions :	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containn Methods for cleaning up :	nent and cleaning up Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- ming which regulations applicable

mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

#### Section 7: Handling and storage

#### Precautions for safe handling

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	Do not get on skin or clothing.
-		Do not breathe mist or vapours.
		Do not swallow.
		Avoid contact with eyes.
		Wash skin thoroughly after handling.
		Handle in accordance with good industrial hygiene and safety
		practice, based on the results of the workplace exposure as- sessment
		Keep container tightly closed.
		Do not eat, drink or smoke when using this product.
		Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye

Version 6.0	Revision Date: 06.07.2024	SDS Number: 5191220-00014	Date of last issue: 06.04.2024 Date of first issue: 22.10.2019	
		flushing systems and safety showers close to the work place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include revi engineering controls, proper personal protective equip appropriate degowning and decontamination procedur industrial hygiene monitoring, medical surveillance and use of administrative controls.

	litions for safe storage rials to avoid	Store locked up Keep tightly clo Store in accord	sed. ance with the particular national regulations. th the following product types:	
			gagono	

#### Section 8: Exposure controls/personal protection

## **Control parameters**

## **Occupational Exposure Limits**

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Doramectin	117704-25-3	TWA	25 µg/m3 (OEB 3)	Internal
	Further information: Skin			
		Wipe limit	250 µg/100 cm2	Internal

Appropriate engineering : control measures	Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip- less quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face con- tainment devices). Minimize open handling.
Individual protection measures	s, such as personal protective equipment (PPE)
Eye/face protection :	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or

## Skin protection : Work uniform or laboratory coat.

aerosols.

Transport in bulk according to IMO instruments

Not applicable for product as supplied.

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### Section 15: Regulatory information

#### Safety, health and environmental regulations specific for the product in question

Workplace Safety and Health Act and Workplace Safety and Health (General Provisions) Regulations: This product is subjected to the SDS, labelling, PEL and other requirements in the Act/Regulations.

Environmental Protection and Management Act and : Not applicable Environmental Protection and Management (Hazardous Substances) Regulations

Fire Safety (Petroleum and Flammable Materials) : Not applicable Regulations

#### The components of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined

#### Section 16: Other information

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
