#### **SECTION 2. HAZARDS IDENTIFICATION**

#### GHS Classification in accordance with ABNT NBR 14725 Standard

Carcinogenicity	:	Category 1A
Reproductive toxicity	:	Category 1A
Specific target organ toxicity - repeated exposure (Oral)	:	Category 2 (female reproductive organs, male reproductive organs, Blood, Kidney, Bladder)
Long-term (chronic) aquatic hazard	:	Category 1

#### GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms	:	
Signal Word	:	Danger
Hazard Statements	:	H350 May cause cancer. H360FD May damage fertility. May damage the unborn child. H373 May cause damage to organs (female reproductive or- gans, male reproductive organs, Blood, Kidney, Bladder)

Version 5.0	Revision Date: 28.09.2024	SDS Number: 1930383-00016	Date of last issue: 14.12.2023 Date of first issue: 07.09.2017
			ged or repeated exposure if swallowed. ic to aquatic life with long lasting effects.
Preca	utionary Statements	Prevention:	
		P260 Do not b P273 Avoid rel	lease to the environment. otective gloves/ protective clothing/ eye protec-
		Response:	
		P308 + P313 I attention. P391 Collect s	F exposed or concerned: Get medical advice/ pillage.
		Storage:	
		P405 Store loc	ked up.
Othe	r hazards which do n	ot result in classifica	tion

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form explosive dust-air mixture during processing, handling or other means.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
Starch	9005-25-8		>= 10 -< 20
Oestriol	50-27-1	Carc., 1A Repr., 1A STOT RE, (Oral)(female repro- ductive organs, male reproductive organs, Blood, Kidney, Blad- der), 1 Aquatic Chronic, 1	>= 1 -< 2,5

#### **SECTION 4. FIRST AID MEASURES**

General advice	<ul> <li>In the case of accident or if you feel unwell, seek medical advice immediately.</li> <li>When symptoms persist or in all cases of doubt seek medical advice.</li> </ul>
If inhaled	: If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	<ul> <li>In case of contact, immediately flush skin with soap and plenty of water.</li> <li>Remove contaminated clothing and shoes.</li> <li>Get medical attention.</li> </ul>

Version 5.0	Revision Date: 28.09.2024	SDS Number: 1930383-00016	Date of last issue: 14.12.2023 Date of first issue: 07.09.2017
		Wash clothin	g before reuse.
			lean shoes before reuse.
In cas	se of eye contact		se well with water.
			attention if irritation develops and persists.
If swa	allowed		DO NOT induce vomiting.
		Get medical a	
Moot	important ourmatana		thoroughly with water.
	important symptoms ffects, both acute and	: May cause ca	fertility. May damage the unborn child.
delay	,	, ,	amage to organs through prolonged or repeated
		Contact with the skin.	dust can cause mechanical irritation or drying of
			with the eyes can lead to mechanical irritation.
Prote	ction of first-aiders	and use the r	onders should pay attention to self-protection, ecommended personal protective equipment ential for exposure exists (see section 8).
Notes	s to physician	•	matically and supportively.

### SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment.

Versic 5.0	on	Revision Date: 28.09.2024		S Number: 30383-00016	Date of last issue: 14.12.2023 Date of first issue: 07.09.2017
				Retain and dispos	akage or spillage if safe to do so. se of contaminated wash water. should be advised if significant spillages red.
Methods and materials for containment and cleaning up		:	container for disp Avoid dispersal of with compressed Dust deposits sho surfaces, as these released into the Local or national disposal of this m employed in the of determine which n Sections 13 and 1	f dust in the air (i.e., clearing dust surfaces	

### SECTION 7. HANDLING AND STORAGE

Technical measures	:	Static electricity may accumulate and ignite suspended dust causing an explosion. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.

Version 5.0	Revision Date: 28.09.2024	SDS Number: 1930383-00016	Date of last issue: 14.12.2023 Date of first issue: 07.09.2017			
Conditions for safe storage		: Keep in properly labeled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.				
Materials to avoid		<ul> <li>Do not store with the following product types: Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Explosives Gases</li> </ul>				

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Starch	9005-25-8	TWA	10 mg/m <sup>3</sup>	ACGIH
Oestriol	50-27-1	TWA	0.5 µg/m3 (OEB 5)	Internal
	Further informa	ation: Skin		
		Wipe limit	5 µg/100 cm <sup>2</sup>	Internal

Engineering measures	:	Use closed processing systems or containment technologies to control at source (e.g., glove boxes/isolators) and to prevent leakage of compounds into the workplace. All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. No open handling permitted. Totally enclosed processes and materials transport systems are required. Operations require the use of appropriate containment technology designed to prevent leakage of compounds into the workplace.
Personal protective equipm	ent	
Respiratory protection Filter type Hand protection	:	If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection. Particulates type
Material	:	Chemical-resistant gloves
Remarks Eye protection	:	Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols. Work uniform or laboratory coat.
Skin and body protection	·	

Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gaunilets, disposable suits) to avoid exposed skin surfaces Use appropriate degowning techniques to remove potentially contaminated clothing.           SECTION 9. Oxidiz	zing properties	: The s	ubstance o	r mixture is not classified as oxidizing.
	le characteristics le size	: No da	ta available	

#### SECTION 10. STABILITY AND REACTIVITY

Reactivity Chemical stability Possibility of hazardous reac- tions	:	Not classified as a reactivity hazard. Stable under normal conditions. May form explosive dust-air mixture during processing, handling or other means.
Conditions to avoid		Can react with strong oxidizing agents. Heat, flames and sparks.
Conditions to avoid	·	Avoid dust formation.
Incompatible materials	:	Oxidizing agents
Hazardous decomposition products	:	No hazardous decomposition products are known.

#### SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of	:	Inhalation
exposure		Skin contact
		Ingestion
		Eye contact

#### Acute toxicity

Not classified based on available information.

#### Components:

#### Starch:

Acute oral toxicity	:	LD50 (Rat): > 5.000 mg/kg
Acute dermal toxicity	:	LD50 (Rabbit): > 2.000 mg/kg

#### **Oestriol:**

I

Acute oral toxicity	LD5	0 (Rat): >	2.000 mg/kg
---------------------	-----	------------	-------------

#### Skin corrosion/irritation

Not classified based on available information.

#### Serious eye damage/eye irritation

Not classified based on available information.
