Version	Revision Date:	SDS Number:	Date of last issue: 04.04.2023
4.1	30.09.2023	1308609-00015	Date of first issue: 21.02.2017

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name	:	Flunixin Injection Formulation				
Manufacturer or supplier's details						
Company name of supplier	:	MSD				
Address	:	126 E. Lincoln Avenue				
		Rahway, New Jersey U.S.A. 07065				
Telephone	:	908-740-4000				
Emergency telephone	:	1-908-423-6000				
E-mail address	:	EHSDATASTEWARD@msd.com				
Recommended use of the chemical and restrictions on use						
Recommended use	:	Veterinary product				
Restrictions on use	:	Not applicable				

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification Acute toxicity (Oral)	:	Category 4
Acute toxicity (Inhalation)	:	Category 3
Serious eye damage/eye irritation	:	Category 1
Reproductive toxicity	:	Category 2
Specific target organ toxicity - repeated exposure	:	Category 1 (Gastrointestinal tract, Kidney, Blood)
GHS label elements Hazard pictograms	:	

Signal Word	:	Danger
Hazard Statements	:	 H302 Harmful if swallowed. H318 Causes serious eye damage. H331 Toxic if inhaled. H361 Suspected of damaging fertility or the unborn child. H372 Causes damage to organs (Gastrointestinal tract, Kidney, Blood) through prolonged or repeated exposure.
Precautionary Statements	:	Prevention: P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe mist or vapors.

Flunixin Injection Formulation

rsion I	Revision Date: 30.09.2023	SDS Number: 1308609-00015	Date of last issue: 04.04.2023 Date of first issue: 21.02.2017
		P270 Do not ea P271 Use only	n thoroughly after handling. at, drink or smoke when using this product. outdoors or in a well-ventilated area. tective gloves/ protective clothing/ eye protection.
		CENTER or do P304 + P340 + and keep at res POISON CENT P305 + P351 + water for sever and easy to do CENTER or do	P330 IF SWALLOWED: Call a POISON ctor/ physician if you feel unwell. Rinse mouth. P311 IF INHALED: Remove victim to fresh air st in a position comfortable for breathing. Call a TER or doctor/ physician. P338 + P310 IF IN EYES: Rinse cautiously with al minutes. Remove contact lenses, if present . Continue rinsing. Immediately call a POISON ctor/ physician.
		Storage: P405 Store locl	ked up
		Disposal:	
			of contents/ container to an approved waste dis-

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture

: Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
1-deoxy-1-(methylamino)-D-glucitol 2-[2-	42461-84-7	>= 5 -< 10
methyl-3-(perfluoromethyl)anilino]nicotinate		
Phenol	108-95-2	>= 0.1 -< 1
2,2'-Iminodiethanol	111-42-2	>= 0.1 -< 1
Sodium hydroxymethanesulphinate	6035-47-8	>= 0.1 -< 1

SECTION 4. FIRST AID MEASURES

General advice	 In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	 If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.
In case of skin contact	Get medical attention.In case of contact, immediately flush skin with soap and plenty of water.

Flunixin Injection Formulation

Version 4.1	Revision Date: 30.09.2023	SDS Number: 1308609-00015	Date of last issue: 04.04.2023 Date of first issue: 21.02.2017

	important symptoms effects, both acute and red	Never give any Harmful if swal Causes serious Toxic if inhaled Suspected of c Causes damag	s eye damage.
	ection of first-aiders s to physician	and use the re- when the poter	nders should pay attention to self-protection, commended personal protective equipment ntial for exposure exists (see section 8). natically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides Fluorine compounds Nitrogen oxides (NOx)
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or

Vers 4.1	ion	Revision Date: 30.09.2023		S Number: 08609-00015	Date of last issue: 04.04.2023 Date of first issue: 21.02.2017
					se of contaminated wash water. should be advised if significant spillages ned.
		s and materials for ment and cleaning up	:	For large spills, pr containment to ke can be pumped, s container. Clean up remainin absorbent. Local or national disposal of this m employed in the o determine which the Sections 13 and	t absorbent material. rovide diking or other appropriate eep material from spreading. If diked material store recovered material in appropriate ng materials from spill with suitable regulations may apply to releases and aterial, as well as those materials and items cleanup of releases. You will need to regulations are applicable. I5 of this SDS provide information regarding tional requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	Do not breathe mist or vapors. Do not swallow. Do not get in eyes. Avoid prolonged or repeated contact with skin. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
Conditions for safe storage	:	Keep in properly labeled containers. Store locked up. Keep tightly closed. Keep in a cool, well-ventilated place. Store in accordance with the particular national regulations.
Materials to avoid	:	Do not store with the following product types: Strong oxidizing agents

		Phenol	Urine	End of shift (As soon as possible after exposure ceases)	250 mg/g creatinine	ACGIH BEI

Engineering measures

Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., dripless quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). Minimize open handling.
