

# Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

Version SDS Number: Date of last issue: 22.02.2024 Revision Date: 9.0 28.09.2024 636527-00022 Date of first issue: 03.05.2016

**SECTION 1. IDENTIFICATION** 

Product identifier Human Gonadotropin Chorionic / Serum Gonadotropin Formu-

lation

P.G. 600 INJECTION OF SERUM GONADOTROPHIN (400 Other means of identification

I.U.) AND CHORIONIC GONADOTROPHIN (200 I.U.) (37234)

Manufacturer or supplier's details

MSD Company

Address Rua Coronel Bento Soares, 530

Cruzeiro - Sao Paulo - Brazil CEP 12730-340

Telephone 908-740-4000

Emergency telephone 1-908-423-6000

E-mail address EHSDATASTEWARD@msd.com

Recommended use of the chemical and restrictions on use

Recommended use Veterinary product Not applicable Restrictions on use

**SECTION 2. HAZARDS IDENTIFICATION** 

GHS Classification in accordance with ABNT NBR 14725 Standard

Reproductive toxicity : Category 1A

Specific target organ toxicity - : Category 1 (Ovary)

repeated exposure (Oral)

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms

Signal Word Danger

Hazard Statements H360Fd May damage fertility. Suspected of damaging the un-

born child.

H372 Causes damage to organs (Ovary) through prolonged or

repeated exposure if swallowed.

Precautionary Statements Prevention:

# Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

Version **Revision Date:** SDS Number: Date of last issue: 22.02.2024 9.0 28.09.2024 636527-00022 Date of first issue: 03.05.2016

P201 Obtain special instructions before use.

P260 Do not breathe dust.

P264 Wash skin thoroughly after handling.

P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves/ protective clothing/ eye protec-

tion/ face protection.

Response:

P308 + P313 IF exposed or concerned: Get medical advice/

attention.

Storage:

P405 Store locked up.

#### Other hazards which do not result in classification

Dust contact with the eyes can lead to mechanical irritation.

Contact with dust can cause mechanical irritation or drying of the skin.

May form explosive dust-air mixture during processing, handling or other means.

#### **SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Substance / Mixture Mixture

# Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
Gonadotropin, pregnant mare	9002-70-4	Repr., 1B	>= 1 -< 5
serum			
Gonadotropin, chorionic	9002-61-3	Repr., 1A STOT RE, (Ovary) , 1	>= 1 -< 5

#### **SECTION 4. FIRST AID MEASURES**

General advice In the case of accident or if you feel unwell, seek medical

advice immediately.

When symptoms persist or in all cases of doubt seek medical

advice.

If inhaled If inhaled, remove to fresh air.

Get medical attention.

In case of skin contact In case of contact, immediately flush skin with soap and plenty

of water.

Remove contaminated clothing and shoes.

Get medical attention. Wash clothing before reuse.

Thoroughly clean shoes before reuse.

If in eyes, rinse well with water. In case of eye contact

Get medical attention if irritation develops and persists.

If swallowed, DO NOT induce vomiting. If swallowed

Get medical attention.

Rinse mouth thoroughly with water.

Most important symptoms

child.

and effects, both acute and

Causes damage to organs through prolonged or repeated

May damage fertility. Suspected of damaging the unborn

delayed

# Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

 Version
 Revision Date:
 SDS Number:
 Date of last issue: 22.02.2024

 9.0
 28.09.2024

 Date of first issue: 03.05.2016

exposure if swallowed.

Contact with dust can cause mechanical irritation or drying of

the skin.

Dust contact with the eyes can lead to mechanical irritation.

Protection of first-aiders : First Aid responders should pay attention to self-protection,

and use the recommended personal protective equipment when the potential for exposure exists (see section 8).

Notes to physician : Treat symptomatically and supportively.

**SECTION 5. FIRE-FIGHTING MEASURES** 

Suitable extinguishing media : Water spray

Alcohol-resistant foam Carbon dioxide (CO2)

Dry chemical

Unsuitable extinguishing

media

None known.

Specific hazards during fire

fighting

Avoid generating dust; fine dust dispersed in air in sufficient

concentrations, and in the presence of an ignition source is a

potential dust explosion hazard.

Exposure to combustion products may be a hazard to health.

Hazardous combustion prod: :

ucts

Carbon oxides

Nitrogen oxides (NOx)

Sulfur oxides Metal oxides

Oxides of phosphorus

Specific extinguishing meth-

ods

Use extinguishing measures that are appropriate to local cir-

cumstances and the surrounding environment.

Use water spray to cool unopened containers.

Remove undamaged containers from fire area if it is safe to do

SO.

Evacuate area.

Special protective equipment:

for fire-fighters

In the event of fire, wear self-contained breathing apparatus.

Use personal protective equipment.

**SECTION 6. ACCIDENTAL RELEASE MEASURES** 

Personal precautions, protective equipment and emer-

gency procedures

Use personal protective equipment.

Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).

Environmental precautions : Avoid release to the environment.

Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water.

Local authorities should be advised if significant spillages

cannot be contained.

# Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

 Version
 Revision Date:
 SDS Number:
 Date of last issue: 22.02.2024

 9.0
 28.09.2024
 636527-00022
 Date of first issue: 03.05.2016

Methods and materials for containment and cleaning up

Sweep up or vacuum up spillage and collect in suitable

container for disposal.

Avoid dispersal of dust in the air (i.e., clearing dust surfaces

with compressed air).

Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to

determine which regulations are applicable.

Sections 13 and 15 of this SDS provide information regarding

certain local or national requirements.

#### **SECTION 7. HANDLING AND STORAGE**

Technical measures : Static electricity may accumulate and ignite suspended dust

causing an explosion.

Provide adequate precautions, such as electrical grounding

and bonding, or inert atmospheres.

Local/Total ventilation : If sufficient ventilation is unavailable, use with local exhaust

ventilation.

Advice on safe handling : Do not get on skin or clothing.

Do not breathe dust. Do not swallow.

Avoid contact with eyes.

Wash skin thoroughly after handling.

Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure

assessment

Keep container tightly closed.

Minimize dust generation and accumulation. Keep container closed when not in use. Keep away from heat and sources of ignition.

Take precautionary measures against static discharges. Do not eat, drink or smoke when using this product.

Take care to prevent spills, waste and minimize release to the

environment.

Hygiene measures : If exposure to chemical is likely during typical use, provide eye

flushing systems and safety showers close to the working

place

When using do not eat, drink or smoke. Wash contaminated clothing before re-use.

Conditions for safe storage : Keep in properly labeled containers.

Store locked up. Keep tightly closed.

Store in accordance with the particular national regulations.

Materials to avoid : Do not store with the following product types:

Strong oxidizing agents

Self-reactive substances and mixtures

Organic peroxides

Explosives Gases

# Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

 Version
 Revision Date:
 SDS Number:
 Date of last issue: 22.02.2024

 Date of first issue: 03.05.2016

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
Gonadotropin, pregnant mare serum	9002-70-4	TWA	4 μg/m3 (OEB 4)	Internal
		Wipe limit	40 μg/100 cm2	Internal
Gonadotropin, chorionic	9002-61-3	TWA	OEB 4 (3 µg/m3)	Internal
		Wipe limit	25 µg/100 cm <sup>2</sup>	Internal

**Engineering measures** : Minimize workplace exposure concentrations.

Apply measures to prevent dust explosions.

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). If sufficient ventilation is unavailable, use with local exhaust

ventilation.

Personal protective equipment

Respiratory protection : If adequate local exhaust ventilation is not available or

exposure assessment demonstrates exposures outside the

recommended guidelines, use respiratory protection.

Filter type

Hand protection

Particulates type

Material : Chemical-resistant gloves

Remarks : Choose gloves to protect hands against chemicals depending

on the concentration specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before

breaks and at the end of workday.

Eye protection : Wear the following personal protective equipment:

Safety goggles

Skin and body protection : Select appropriate protective clothing based on chemical

resistance data and an assessment of the local exposure

potential.

Skin contact must be avoided by using impervious protective

clothing (gloves, aprons, boots, etc).

#### **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Physical state : powder

Color : white

products

: No hazardous decomposition products are known.

#### **SECTION 11. TOXICOLOGICAL INFORMATION**

Information on likely routes of: Inhalation

Skin contact exposure

Ingestion Eye contact

**Acute toxicity** 

Not classified based on available information.

#### **Components:**

#### Gonadotropin, pregnant mare serum:

Acute oral toxicity LD50 (Mouse): 120 mg/kg

Remarks: No data available Acute inhalation toxicity

Acute dermal toxicity Remarks: No data available

Acute toxicity (other routes of:

administration)

LD50 (Mouse): > 1.700 mg/kg Application Route: Intravenous

LD50 (Mouse): > 1.700 mg/kg

Application Route: Subcutaneous

LD50 (Rat): 500 mg/kg

Application Route: Intravenous

LD50 (Rat): 500 mg/kg

Application Route: Subcutaneous

#### Skin corrosion/irritation

Not classified based on available information.

### **Components:**

Gonadotropin, pregnant mare serum:

Remarks : No data available

Serious eye damage/eye irritation

Not classified based on available information.

**Components:** 

Gonadotropin, pregnant mare serum:

Remarks : No data available

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

**Components:** 

Gonadotropin, pregnant mare serum:

Remarks : No data available

Germ cell mutagenicity

Not classified based on available information.

**Components:** 

Gonadotropin, pregnant mare serum:

Genotoxicity in vivo : Test Type: Cytogenetic assay

Species: Mouse

Application Route: Intraperitoneal injection

Result: positive

Remarks: Not classified due to data which are conclusive

although insufficient for classification.

Carcinogenicity

Not classified based on available information.

**Components:** 

Gonadotropin, pregnant mare serum:

Carcinogenicity - Assess- : No data available

ment

Reproductive toxicity

May damage fertility. Suspected of damaging the unborn child.

#### **Components:**

#### Gonadotropin, pregnant mare serum:

Effects on fertility : Test Type: Fertility

Species: Rat

Application Route: Subcutaneous Fertility: LOAEL: 10 µg/kg Result: Effects on fertility.

Remarks: May cause adverse reproductive effects.

Based on data from similar materials

Effects on fetal development : Remarks: May cause birth defects.

Based on data from similar materials

Reproductive toxicity - As-

sessment

Some evidence of adverse effects on development, based on animal experiments., Clear evidence of adverse effects on

sexual function and fertility, based on animal experiments.

#### Gonadotropin, chorionic:

Effects on fertility : Test Type: Fertility

Species: Rat

Application Route: Intravenous injection Fertility: LOAEL: 8,89 mg/kg body weight

Result: Effects on fertility.

Test Type: Fertility

Application Route: Intraperitoneal injection Fertility: LOAEL: 0,883 mg/kg body weight

Result: Effects on fertility.

Test Type: Fertility Species: Monkey

Fertility: LOAEL: 0,224 mg/kg body weight

Result: Effects on fertility.

Effects on fetal development : Test Type: Embryo-fetal development

Species: Hamster

Application Route: Intraperitoneal injection

Embryo-fetal toxicity.: LOAEL: 60 mg/kg body weight

Result: Embryo-fetal toxicity.

Reproductive toxicity - As-

sessment

Positive evidence of adverse effects on sexual function and fertility from human epidemiological studies., Some evidence

of adverse effects on development, based on animal

experiments.

#### STOT-single exposure

Not classified based on available information.

#### STOT-repeated exposure

Causes damage to organs (Ovary) through prolonged or repeated exposure if swallowed.

# **Human Gonadotropin Chorionic / Serum Gonadotropin Formulation**

Version Revision Date: SDS Number: Date of last issue: 22.02.2024 9.0 28.09.2024 636527-00022 Date of first issue: 03.05.2016

#### **Components:**

#### Gonadotropin, chorionic:

Target Organs : Ovary

Assessment : Causes damage to organs through prolonged or repeated

exposure.

### Repeated dose toxicity

#### **Components:**

#### Gonadotropin, pregnant mare serum:

Species : Rat

NOAEL : 1,5 mg/kg

Application Route : Oral

Exposure time : 3 Days

Symptoms : No adverse effects.

Species : Rat
LOAEL : 10 mg/kg
Application Route : Oral
Exposure time : 14 Days

Target Organs : Reproductive organs

### **Aspiration toxicity**

Not classified based on available information.

# Experience with human exposure

#### **Components:**

#### Gonadotropin, pregnant mare serum:

Inhalation : Symptoms: Headache, Fatigue, mood swings, altered mental

status, Edema, Allergic reactions, Effects on fertility.

Skin contact : Remarks: May produce an allergic reaction. Ingestion : Remarks: May be harmful if swallowed.

Gonadotropin, chorionic:

Inhalation : Target Organs: ovaries

Symptoms: effects on menstruation, gynecomastia, Headache, mental depression, Irritability, restlessness, Fatigue

#### **SECTION 12. ECOLOGICAL INFORMATION**

#### **Ecotoxicity**

No data available

#### Persistence and degradability

No data available

### **Bioaccumulative potential**

No data available
