

Versio 6.1	on Revision Date: 30.09.2023		Number: 14-00020	Date of last issue: 04.04.2023 Date of first issue: 03.05.2016	
SECTION 1: Identification of the substance/mixture and of the company/undertaking					
1.1 Product identifier Trade name : Human Gonadotropin Chorionic / Serum Gonadotropin Formulation					
1.2 Relevant identified uses of the substance or mixture and uses advised against Use of the Sub- : Veterinary product stance/Mixture					
F	Recommended restrictions	: No	ot applicable		

1.3 Details of the supplier of the safety data sheet

Company	:	MSD 20 Spartan Road 1619 Spartan, South Africa
Telephone	:	+27119239300
E-mail address of person responsible for the SDS	:	EHSDATASTEWARD@msd.com

1.4 Emergency telephone number

+1-908-423-6000

on use

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Reproductive toxicity, Category 1A

Specific target organ toxicity - repeated exposure, Category 1

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms

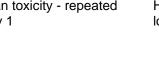

H360Fd

Signal word

Hazard statements

May damage fertility. Suspected of damaging the unborn child.

H360Fd: May damage fertility. Suspected of damaging the unborn child. H372: Causes damage to organs through prolonged or repeated exposure.

1

÷

Version 6.1	Revision Date: 30.09.2023	SDS Number: 636544-00020	Date of last issue: 04.04.2023 Date of first issue: 03.05.2016		
		H372 Causes of peated exposure	damage to organs through prolonged or re-		
Preca	utionary statements	 Prevention: P201 Obtain special instructions before use. P260 Do not breathe dust. P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product P280 Wear protective gloves/ protective clothing/ eye pr tion/ face protection. 			
		Response: P308 + P313 II attention.	F exposed or concerned: Get medical advice/		

Hazardous components which must be listed on the label:

Gonadotropin, chorionic

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Dust contact with the eyes can lead to mechanical irritation.

Contact with dust can cause mechanical irritation or drying of the skin.

May form explosive dust-air mixture during processing, handling or other means.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
Gonadotropin, pregnant mare serum	9002-70-4 232-663-9	Repr. 1B; H360Fd	>= 1 - < 10
Gonadotropin, chorionic	9002-61-3 232-660-2	Repr. 1A; H360Fd STOT RE 1; H372 (Ovary)	>= 1 - < 10

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice

: In the case of accident or if you feel unwell, seek medical advice immediately.

When symptoms persist or in all cases of doubt seek medical

Human Gonadotropin Chorionic / Serum Gonadotropin Formulation

Versior 6.1	n	Revision Date: 30.09.2023		DS Number: 36544-00020	Date of last issue: 04.04.2023 Date of first issue: 03.05.2016	
				advice.		
Protection of first-aiders		:	and use the recor	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).		
lf i	inhale	ed	:	If inhaled, remove Get medical atter		
In case of skin contact		:	of water. Remove contamin Get medical atter Wash clothing be			
In case of eye contact		:	If in eyes, rinse well with water. Get medical attention if irritation develops and persists.			
If swallowed		:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.			
4.2 Mo	ost im	portant symptoms a	nd	effects, both acute	e and delayed	
	isks		:	May damage fert	lity. Suspected of damaging the unborn to organs through prolonged or repeated	
				the skin.	can cause mechanical irritation or drying of the eyes can lead to mechanical irritation.	
		•	me		d special treatment needed	
Treatment		:	Treat symptomat	cally and supportively.		

SECTION 5: Firefighting measures

5.1 Extinguishing media							
Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical					
Unsuitable extinguishing media	:	None known.					

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-	:	Avoid generating dust; fine dust dispersed in air in sufficient
fighting		concentrations, and in the presence of an ignition source is a

Vers 6.1	sion	Revision Date: 30.09.2023		9S Number: 6544-00020	Date of last issue: 04.04.2023 Date of first issue: 03.05.2016
	Hazard ucts	lous combustion prod-	:	potential dust exp Exposure to comb Carbon oxides Nitrogen oxides (N Sulphur oxides Metal oxides Oxides of phosph	oustion products may be a hazard to health.
5.3 A	Advice	for firefighters			
Special protective equipment for firefighters		:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.	
	Specific ods	c extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
6.2 Environmental precautions		
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and material for containment and cleaning up

1	Aethods for cleaning up	:	Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Dust deposits should not be allowed to accumulate on surfac- es, as these may form an explosive mixture if they are re- leased into the atmosphere in sufficient concentration. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

Version	Revision Date:	SDS Number:	Date of last issue: 04.04.2023
6.1	30.09.2023	636544-00020	Date of first issue: 03.05.2016

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	:	Static electricity may accumulate and ignite suspended dust causing an explosion.			
		Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.			
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.			
Advice on safe handling	:	Do not get on skin or clothing.			
		Do not breathe dust.			
		Do not swallow.			
		Avoid contact with eyes.			
		Wash skin thoroughly after handling.			
		Handle in accordance with good industrial hygiene and safety			
		practice, based on the results of the workplace exposure as- sessment			
		Keep container tightly closed.			
		Minimize dust generation and accumulation.			
		Keep container closed when not in use.			
		Keep away from heat and sources of ignition.			
		Take precautionary measures against static discharges.			
		Do not eat, drink or smoke when using this product.			
		Take care to prevent spills, waste and minimize release to the environment.			
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contami- nated clothing before re-use.			
Conditions for safe storage including any incompatibilities					

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	:	Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.
Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Explosives Gases
7.3 Specific end use(s) Specific use(s)		No data available

Version	Revision Date:	SDS Number:	Date of last issue: 04.04.2023
6.1	30.09.2023	636544-00020	Date of first issue: 03.05.2016

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Gonadotropin, pregnant mare serum	9002-70-4	TWA	4 µg/m3 (OEB 4)	Internal
		Wipe limit	40 µg/100 cm2	Internal
Gonadotropin, chorionic	9002-61-3	TWA	OEB 4 (3 µg/m3)	Internal
		Wipe limit	25 μg/100 cm ²	Internal

8.2 Exposure controls

Engineering measures

Minimize workplace exposure concentrations.

Apply measures to prevent dust explosions.

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

If sufficient ventilation is unavailable, use with local exhaust ventilation.

Personal protective equipment

Eye/face protection	:	Wear the following personal protective equipment: Safety goggles
Hand protection		
Material	:	Chemical-resistant gloves
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous sub- stance and specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.
Skin and body protection	:	Select appropriate protective clothing based on chemical re- sistance data and an assessment of the local exposure poten- tial. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
Respiratory protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection.
Filter type	:	Particulates type (P)

SECTION 10: Stability and reactivity

10.1 Reactivity

Not classified as a reactivity hazard.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions	: May form explosive dust-air mixture during processing, han- dling or other means. Can react with strong oxidizing agents.
10.4 Conditions to avoid	
Conditions to avoid	: Heat, flames and sparks. Avoid dust formation.
10.5 Incompatible materials	
Materials to avoid	: Oxidizing agents
10.6 Hazardous decomposition	products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Information on likely routes of	:	Inhalation
exposure		Skin contact
		Ingestion
		Eye contact

Acute toxicity

Not classified based on available information.

Components:

Gonadotropin, pregnant mare serum:

Acute oral toxicity	:	LD50 (Mouse): 120 mg/kg
Acute inhalation toxicity	:	Remarks: No data available
Acute dermal toxicity	:	Remarks: No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods	
Product	 Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities. Do not dispose of waste into sewer.
Contaminated packaging	 Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.
