Physical and chemical hazards

Not classified based on available information.

Health hazards

Harmful if swallowed. May cause damage to organs. May cause damage to organs through prolonged or repeated exposure.

Environmental hazards

Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

Additional Labelling

The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 1.42 %

Other hazards which do not result in classification

None known.

4. FIRST AID MEASURES

ods

	General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately.
			When symptoms persist or in all cases of doubt seek medical
			advice.
	If inhaled	:	If inhaled, remove to fresh air.
			Get medical attention if symptoms occur.
	In case of skin contact	:	Wash with water and soap as a precaution.
			Get medical attention if symptoms occur.
	In case of eye contact	:	Flush eyes with water as a precaution.
			Get medical attention if irritation develops and persists.
	If swallowed	:	If swallowed, DO NOT induce vomiting unless directed to do
			so by medical personnel.
			Get medical attention.
			Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person.
	Most important symptoms		Harmful if swallowed.
	and effects, both acute and	•	May cause damage to organs.
	delayed		May cause damage to organs through prolonged or repeated
			exposure.
	Protection of first-aiders	:	First Aid responders should pay attention to self-protection,
			and use the recommended personal protective equipment
			when the potential for exposure exists (see section 8).
	Notes to physician	:	Treat symptomatically and supportively.

Methods and materials for containment and cleaning up		:	Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate containe Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.	

7. HANDLING AND STORAGE

Handling

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation Advice on safe handling		Use only with adequate ventilation. Do not breathe vapours. Do not swallow. Avoid contact with eyes. Avoid prolonged or repeated contact with skin. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Do not eat, drink or smoke when using this product.
		Take care to prevent spills, waste and minimize release to the environment.

Engineering measures

:

Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., dripless quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). Minimize open handling.
