#### **Response:**

P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. P304 + P340 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P312 Call a POISON CENTER/ doctor if you feel unwell. P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.

P337 + P313 If eye irritation persists: Get medical advice/ attention.

P362 + P364 Take off contaminated clothing and wash it before reuse.

P391 Collect spillage.

#### Storage:

P403 + P235 Store in a well-ventilated place. Keep cool. P405 Store locked up.

#### Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

### Physical and chemical hazards

Flammable liquid and vapour.

#### Health hazards

May be harmful if swallowed. May be harmful in contact with skin. Causes mild skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. Suspected of causing genetic defects. May cause drowsiness or dizziness.

#### **Environmental hazards**

Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

#### Other hazards which do not result in classification

Vapours may form explosive mixture with air.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

| Chemical name                           | CAS-No.     | Concentration (% w/w) |
|---|-------------|-----------------------|
| 2-(2-Butoxyethoxy)ethanol               | 112-34-5    | >= 50 -< 70           |
| Propan-2-ol                             | 67-63-0     | >= 30 -< 50           |
| Poly[oxy(methyl-1,2-ethanediyl)], α-(1- | 642443-86-5 | >= 10 -< 20           |
| oxotetradecyl)-ω-(phenylmethoxy)-       |             |                       |

| 7-Oxabicyclo[4.1.0]hept-3-ylmethyl 7-<br>oxabicyclo[4.1.0]heptane-3-carboxylate | 2386-87-0  | >= 1 -< 2.5  |
|---|------------|--------------|
| Ivermectin  | 70288-86-7 | >= 0.25 -< 1 |
| 2,6-Di-tert-butyl-p-cresol  | 128-37-0   | >= 0.25 -< 1 |

### 4. FIRST AID MEASURES

|      | General advice  | : | In the case of accident or if you feel unwell, seek medical ad-<br>vice immediately.<br>When symptoms persist or in all cases of doubt seek medical<br>advice.   |
|------|---|---|--|
|      | If inhaled  | : | If inhaled, remove to fresh air.<br>Get medical attention.   |
|      | In case of skin contact   | : | In case of contact, immediately flush skin with plenty of water.<br>Remove contaminated clothing and shoes.<br>Get medical attention.<br>Wash clothing before reuse.<br>Thoroughly clean shoes before reuse.               |
|      | In case of eye contact  | : | In case of contact, immediately flush eyes with plenty of water<br>for at least 15 minutes.<br>If easy to do, remove contact lens, if worn.<br>Get medical attention.  |
|      | If swallowed  | : | If swallowed, DO NOT induce vomiting.<br>Get medical attention.<br>Rinse mouth thoroughly with water.  |
|      | Most important symptoms<br>and effects, both acute and<br>delayed | : | May be harmful if swallowed or in contact with skin.<br>Causes mild skin irritation.<br>May cause an allergic skin reaction.<br>Causes serious eye irritation.<br>May cause drowsiness or dizziness.                       |
|      | Protection of first-aiders  | : | Suspected of causing genetic defects.<br>First Aid responders should pay attention to self-protection,<br>and use the recommended personal protective equipment<br>when the potential for exposure exists (see section 8). |
|      | Notes to physician  | : | Treat symptomatically and supportively.  |
| 5. F | IREFIGHTING MEASURES  |   |  |
|      | Suitable extinguishing media                                      | : | Water spray<br>Alcohol-resistant foam<br>Carbon dioxide (CO2)<br>Dry chemical  |
|      | Unsuitable extinguishing media                                    | : | High volume water jet  |
|      | Specific hazards during fire-<br>fighting                         | : | Do not use a solid water stream as it may scatter and spread<br>fire.<br>Flash back possible over considerable distance.   |
|      |   |   |  |

### 7. HANDLING AND STORAGE

#### Handling

| Technical measures          | : | See Engineering measures under EXPOSURE<br>CONTROLS/PERSONAL PROTECTION section.  |
|-----------------------------|---|---|
| Local/Total ventilation     | : | If sufficient ventilation is unavailable, use with local exhaust<br>ventilation.<br>Use explosion-proof electrical, ventilating and lighting equip-<br>ment.  |
| Advice on safe handling     | : | Do not get on skin or clothing.<br>Do not breathe mist or vapours.<br>Do not swallow.<br>Do not get in eyes.<br>Wash skin thoroughly after handling.<br>Handle in accordance with good industrial hygiene and safety<br>practice, based on the results of the workplace exposure as-<br>sessment<br>Non-sparking tools should be used.<br>Keep container tightly closed.<br>Keep away from heat, hot surfaces, sparks, open flames and<br>other ignition sources. No smoking.<br>Take precautionary measures against static discharges.<br>Take care to prevent spills, waste and minimize release to the<br>environment. |
| Avoidance of contact        | : | Oxidizing agents  |
| Storage                     |   |   |
| Conditions for safe storage | : | Keep in properly labelled containers.<br>Store locked up.<br>Keep tightly closed.<br>Keep in a cool, well-ventilated place.<br>Store in accordance with the particular national regulations.<br>Keep away from heat and sources of ignition.  |
| Materials to avoid          | : | Do not store with the following product types:<br>Self-reactive substances and mixtures<br>Organic peroxides<br>Oxidizing agents<br>Flammable gases<br>Pyrophoric liquids<br>Pyrophoric solids<br>Self-heating substances and mixtures<br>Poisonous gases<br>Explosives   |
| Packaging material          | : | Unsuitable material: None known.  |

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

| Version | Revision Date: | SDS Number:   | Date of last issue: 2024/07/06  |
|---------|----------------|---------------|---------------------------------|
| 8.0     | 2024/09/28     | 1496918-00024 | Date of first issue: 2017/03/29 |

| Components                 | CAS-No.        | Value type<br>(Form of<br>exposure)        | Control parame-<br>ters / Permissible<br>concentration | Basis    |
|----------------------------|----------------|--|--|----------|
| 2-(2-Butoxyethoxy)ethanol  | 112-34-5       | TWA (Inhal-<br>able fraction<br>and vapor) | 10 ppm   | ACGIH    |
| Propan-2-ol                | 67-63-0        | PC-TWA                                     | 350 mg/m3  | CN OEL   |
|                            |                | PC-STEL                                    | 700 mg/m3  | CN OEL   |
|                            |                | TWA  | 200 ppm  | ACGIH    |

| Ivermectin                 | 70288-86-7     | TWA  | 30 µg/m3 (OEB 3)                                       | Internal |
|                            | Further inform | ation: Skin                                |  |          |
|                            |                | Wipe limit                                 | 300 µg/100 cm2   | Internal |
| 2,6-Di-tert-butyl-p-cresol | 128-37-0       | TWA (Inhal-<br>able fraction<br>and vapor) | 2 mg/m3  | ACGIH    |

### **Biological occupational exposure limits**

| Components  | CAS-No. | Control parameters | Biological specimen | Sam-<br>pling<br>time                         | Permissible<br>concentra-<br>tion | Basis        |
|-------------|---------|--------------------|---------------------|---|-----------------------------------|--------------|
| Propan-2-ol | 67-63-0 | Acetone            | Urine               | End of<br>shift at<br>end of<br>work-<br>week | 40 mg/l                           | ACGIH<br>BEI |

 Engineering measures
 Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., dripless quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices). Minimize open handling.

Use explosion-proof electrical, ventilating and lighting equipment.

#### Personal protective equipment

| Respiratory protection | : | If adequate local exhaust ventilation is not available or expo- |
