Recommended use of the chemical and restrictions on use

Recommended use	:	Veterinary product
Restrictions on use	:	Not applicable

2. HAZARDS IDENTIFICATION

GHS classification of chemical product Reproductive toxicity : Category 1B				
Short-term (acute) aquatic hazard	:	Category 1		
Long-term (chronic) aquatic hazard	:	Category 2		
GHS label elements				
Hazard pictograms	:			
Signal word	:	Danger		
Hazard statements	:	H360FD May damage fertility. May damage the unborn child. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects.		
Precautionary statements	:	Prevention:		

Version 5.0	Revision Date: 2023/12/05	SDS Number: 10808161-00005	Date of last issue: 2023/09/30 Date of first issue: 2022/07/05
		P202 Do not ha and understood P273 Avoid rel	ease to the environment. tective gloves/ protective clothing/ eye protec-
		Response: P308 + P313 IF	exposed or concerned: Get medical advice/
		attention. P391 Collect s	billage.
		Storage: P405 Store loc	ked up.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards which do not result in classification

None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Chemical name	CAS-No.	Concentration (% w/w)	ENCS No.
levamisole hydrochloride	16595-80-5	8	
oxfendazole	53716-50-0	>= 2.5 - < 10	
Polyethylene glycol stearate	9004-99-3	>= 1 - < 10	
Citric acid	77-92-9	>= 1 - < 10	2-1318
Silicon, amorphous	112945-52-5	> 0 - < 10	1-548

4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.

Version 5.0	Revision Date: 2023/12/05	SDS Number:Date of last issue: 2023/09/3010808161-00005Date of first issue: 2022/07/05				
	e of eye contact llowed	 Flush eyes with water as a precaution. Get medical attention if irritation develops and persists. If swallowed, DO NOT induce vomiting. Get medical attention. 				
Most important symptoms and effects, both acute and delayed		Rinse mouth thoroughly with water. : May damage fertility. May damage the unborn child.				
	ction of first-aiders	and use the recommended personal protective equipme when the potential for exposure exists (see section 8).	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).			
Notes	to physician	: Treat symptomatically and supportively.				
5. FIREFIC	BHTING MEASURES					
Suitat	ble extinguishing media	: Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical				
Unsui media	table extinguishing	: None known.				
	fic hazards during fire-	Exposure to combustion products may be a hazard to heal				
	edous combustion prod-	: Carbon oxides				
Speci ods	fic extinguishing meth-	: Use extinguishing measures that are appropriate to lo cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is so.				
	al protective equipment efighters	Evacuate area.In the event of fire, wear self-contained breathing apparaUse personal protective equipment.	atus.			
6. ACCIDE	ENTAL RELEASE MEAS	JRES				
tive e	nal precautions, protec- quipment and emer- procedures	: Use personal protective equipment. Follow safe handling advice (see section 7) and persona tective equipment recommendations (see section 8).	al pro·			
Enviro	onmental precautions	 Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containmer barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillage cannot be contained. 				
	ods and materials for inment and cleaning up	 Soak up with inert absorbent material. For large spills, provide dyking or other appropriate cont ment to keep material from spreading. If dyked material be pumped, store recovered material in appropriate con 	can			

Version 5.0	Revision Date: 2023/12/05	SDS Number:Date of last issue: 2023/09/3010808161-00005Date of first issue: 2022/07/05
		Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regardin certain local or national requirements.
7. HANDL	ING AND STORAGE	
Hand	lling	
Tech	nical measures	: See Engineering measures under EXPOSURE
Local	/Total ventilation	 CONTROLS/PERSONAL PROTECTION section. If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advic	e on safe handling	 Do not get on skin or clothing. Do not breathe mist or vapours. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safe practice, based on the results of the workplace exposure as sessment Keep container tightly closed. Take care to prevent spills, waste and minimize release to the environment.
	lance of contact one measures	 Oxidizing agents If exposure to chemical is likely during typical use, provide a flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
Stora	ige	
	itions for safe storage	 Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.
Mate	rials to avoid	: Do not store with the following product types: Strong oxidizing agents
Pack	aging material	: Unsuitable material: None known.

Version	Revision Date:	SDS Number:	Date of last issue: 2023/09/30

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Threshold limit value and permissible exposure limits for each component in the work environment

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Reference concentration / Permissible con- centration	Basis
levamisole hydrochloride	16595-80-5	TWA	20 µg/m3 (OEB 3)	Internal
	Further inform	ation: Skin		
		Wipe limit	200 µg/100 cm ²	Internal
oxfendazole	53716-50-0	TWA	40 µg/m3 (OEB 3)	Internal
		Wipe limit	400 µg/100 cm ²	Internal
Polyethylene glycol stearate	9004-99-3	TWA (Inhal- able particu- late matter)	10 mg/m3	ACGIH
		TWA (Res- pirable par- ticulate mat- ter)	3 mg/m3	ACGIH

Engineering measures :	Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip- less quick connections). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face con- tainment devices). Minimize open handling.
Personal protective equipment	
Respiratory protection :	If adequate local exhaust ventilation is not available or expo-

Respiratory protection	:	If adequate local exhaust ventilation is not available or expo-
		sure assessment demonstrates exposures outside the rec-
		anona a dad avidaling a super rearrivatory protoction

Filter type Hand protection	:	ommended guidelines, use respiratory protection. Particulates type
Material	:	Chemical-resistant gloves
Remarks Eye protection	:	Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.

AIIC - Australian Inventory of Industrial Chemicals: ANTT - National Agency for Transport by Land of Brazil; ASTM - American Society for the Testing of Materials; bw - Body weight; CMR -Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; ERG - Emergency Response Guide; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China: IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; Nch - Chilean Norm; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NOM - Official Mexican Norm; NTP - National Toxicology Program; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; TCSI - Taiwan Chemical Substance Inventory; TDG - Transportation of Dangerous Goods; TECI - Thailand Existing Chemicals Inventory; TSCA - Toxic Substances Control Act (United States); UN - United Nations; UNRTDG - United Nations Recommendations on the Transport of Dangerous Goods; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
