

# **Nobilis Salenvac Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 06.04.2024
4.0	28.09.2024	7522676-00010	Date of first issue: 13.11.2020

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier Trade name	:	Nobilis Salenvac Formulation
1.2	Relevant identified uses of th	ne s	ubstance or mixture and uses advised against
	Use of the Sub- stance/Mixture	:	Veterinary medicine
	Recommended restrictions on use	:	Not applicable
1.3	Details of the supplier of the	saf	ety data sheet
	Company	:	MSD Kilsheelan Clonmel Tipperary, IE
	Telephone	:	353-51-601000
	E-mail address of person responsible for the SDS	:	EHSDATASTEWARD@msd.com

### 1.4 Emergency telephone number

+1-908-423-6000

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Skin sensitisation, Category 1 H317: May cause an allergic skin reaction.

### 2.2 Label elements

### Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:	
Signal word	:	Warning
Hazard statements	:	H317 May cause an allergic skin reaction.
Precautionary statements	:	Prevention: P272 Contaminated work clothing should not be allowed out

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

# **Nobilis Salenvac Formulation**

Version 4.0	Revision Date: 28.09.2024	SDS Number: 7522676-00010	Date of last issue: 06.04.2024 Date of first issue: 13.11.2020
		of the workplace P280 Wear pr	
		Response:	

P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Hazardous components which must be listed on the label: Maleic acid Formaldehyde

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### **SECTION 4: First aid measures**

4.1 Description of first aid measures				
General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.		
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).		
If inhaled	:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.		
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water.		

Version 4.0	Revision Date: 28.09.2024	-	0S Number: 22676-00010	Date of last issue: 06.04.2024 Date of first issue: 13.11.2020
			Get medical atte Wash clothing be	
In cas	se of eye contact	:		water as a precaution. ntion if irritation develops and persists.
lf swa	allowed	:	Get medical atte	NOT induce vomiting. ntion if symptoms occur. roughly with water.
	mportant symptoms ar	nd e		-
Risks		:	May cause an al	lergic skin reaction.
4.3 Indica	tion of any immediate	med	lical attention an	d special treatment needed
Treat	ment	:	Treat symptomation	tically and supportively.

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions		Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
<b>6.2 Environmental precautions</b> Environmental precautions		Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water.

Local authorities should be advised if significant spillages cannot be contained.

#### 6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.
		certain local of national requirements.

#### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation Advice on safe handling	:	Use only with adequate ventilation. Do not get on skin or clothing. Avoid breathing mist or vapours. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye

Version 4.0	Revision Date: 28.09.2024		DS Number: 522676-00010	Date of last issue: 06.04.2024 Date of first issue: 13.11.2020		
			flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Contaminate work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.			
7.2 Condit	ions for safe storage,	inc	luding any incom	patibilities		
	rements for storage and containers	:	Keep in properly the particular nat	labelled containers. Store in accordance with ional regulations.		
Advice	e on common storage	: Do not store with the following product types: Strong oxidizing agents Gases

Soil

### 8.2 Exposure controls

#### **Engineering measures**

Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip-less quick connections).

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Laboratory operations do not require special containment.

### Personal protective equipment

Eye/face protection	:	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.	
Hand protection Material	:	Chemical-resistant gloves	
Skin and body protection Respiratory protection	:	<ul> <li>Work uniform or laboratory coat.</li> <li>If adequate local exhaust ventilation is not available or exp sure assessment demonstrates exposures outside the rec ommended guidelines, use respiratory protection.</li> <li>Equipment should conform to NS EN 143</li> </ul>	
Filter type	:	Particulates type (P)	

### **SECTION 9: Physical and chemical properties**

### 12.7 Other adverse effects

No data available

SECTION 13: Disposal considerations				
13.1 Waste treatment methods				
Product	<ul> <li>Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities. Do not dispose of waste into sewer.</li> </ul>			
Contaminated packaging	<ul> <li>Empty containers should be taken to an approved waste han- dling site for recycling or disposal.</li> <li>If not otherwise specified: Dispose of as unused product.</li> </ul>
