### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Raltegravir Adult Formulation

#### Manufacturer or supplier's details

Company : MSD

Address : 199 Wenhai North Road  
HEDA, Hangzhou - Zhejiang Province - CHINA 310018

Telephone : +1-908-740-4000

Emergency telephone number : 86-571-87268110

E-mail address : EHSDATASTEWARD@msd.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Pharmaceutical

Restrictions on use : Not applicable

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |                     |
|------------|---------------------|
| Appearance | : powder            |
| Colour     | : No data available |
| Odour      | : No data available |

Causes serious eye damage. May cause respiratory irritation. Suspected of damaging the unborn child. Harmful to aquatic life.

#### GHS Classification

Serious eye damage/eye irritation : Category 1

Reproductive toxicity : Category 2

Specific target organ toxicity - single exposure : Category 3

Short-term (acute) aquatic hazard : Category 3

#### GHS label elements

Hazard pictograms :

# SAFETY DATA SHEET

## Raltegravir Adult Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 2025/05/09  |
| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

Signal word : Danger

Hazard statements : H318 Causes serious eye damage.  
H335 May cause respiratory irritation.  
H361d Suspected of damaging the unborn child.  
H402 Harmful to aquatic life.

Precautionary statements : **Prevention:**  
P203 Obtain, read and follow all safety instructions before use.  
P261 Avoid breathing dust.  
P271 Use only outdoors or in a well-ventilated area.  
P273 Avoid release to the environment.  
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.

**Response:**  
P304 + P340 + P319 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical help if you feel unwell.  
P305 + P354 + P338 + P317 IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical help.  
P318 IF exposed or concerned, get medical advice.

**Storage:**  
P405 Store locked up.

**Disposal:**  
P501 Dispose of contents/ container to an approved waste disposal plant.

### Physical and chemical hazards

Not classified based on available information.

### Health hazards

Causes serious eye damage. Suspected of damaging the unborn child. May cause respiratory irritation.

### Environmental hazards

Harmful to aquatic life.

### Other hazards which do not result in classification

Contact with dust can cause mechanical irritation or drying of the skin.  
May form explosive dust-air mixture during processing, handling or other means.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

### Components

| Chemical name | CAS-No.     | Concentration (% w/w) |
|---------------|-------------|-----------------------|
| Raltegravir   | 871038-72-1 | >= 30 -< 50           |
| Cellulose     | 9004-34-6   | >= 10 -< 20           |

### 4. FIRST AID MEASURES

- |                                                             |                                                                                                                                                                                                                         |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : In the case of accident or if you feel unwell, seek medical advice immediately.<br>When symptoms persist or in all cases of doubt seek medical advice.                                                                |
| If inhaled                                                  | : If inhaled, remove to fresh air.<br>Get medical attention.                                                                                                                                                            |
| In case of skin contact                                     | : In case of contact, immediately flush skin with soap and plenty of water.<br>Remove contaminated clothing and shoes.<br>Get medical attention.<br>Wash clothing before reuse.<br>Thoroughly clean shoes before reuse. |
| In case of eye contact                                      | : In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.<br>If easy to do, remove contact lens, if worn.<br>Get medical attention immediately.                                        |
| If swallowed                                                | : If swallowed, DO NOT induce vomiting.<br>Get medical attention.<br>Rinse mouth thoroughly with water.                                                                                                                 |
| Most important symptoms and effects, both acute and delayed | : Causes serious eye damage.<br>May cause respiratory irritation.<br>Suspected of damaging the unborn child.<br>Contact with dust can cause mechanical irritation or drying of the skin.                                |
| Protection of first-aiders                                  | : First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).                                           |
| Notes to physician                                          | : Treat symptomatically and supportively.                                                                                                                                                                               |

### 5. FIREFIGHTING MEASURES

- |                                       |                                                                                                                                                                                                                                 |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media          | : Water spray<br>Alcohol-resistant foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry chemical                                                                                                                                    |
| Unsuitable extinguishing media        | : None known.                                                                                                                                                                                                                   |
| Specific hazards during fire-fighting | : Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.<br>Exposure to combustion products may be a hazard to health. |
| Hazardous combustion products         | : Carbon oxides<br>Metal oxides<br>Oxides of phosphorus<br>Nitrogen oxides (NO <sub>x</sub> )<br>Fluorine compounds                                                                                                             |

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Raltegravir Adult Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 2025/05/09  |
| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.

Special protective equipment for firefighters : In the event of fire, wear self-contained breathing apparatus.  
Use personal protective equipment.

### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures : Use personal protective equipment.  
Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).

Environmental precautions : Avoid release to the environment.  
Prevent further leakage or spillage if safe to do so.  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up : Surround spill with absorbents and place a damp covering over the area to minimise entry of the material into the air.  
Add excess liquid to allow the material to enter into solution.  
Soak up with inert absorbent material.  
Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).  
Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.  
Clean up remaining materials from spill with suitable absorbent.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

### 7. HANDLING AND STORAGE

#### Handling

Technical measures : Static electricity may accumulate and ignite suspended dust causing an explosion.  
Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

Local/Total ventilation : If sufficient ventilation is unavailable, use with local exhaust ventilation.

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Raltegravir Adult Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 2025/05/09  |
| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

Advice on safe handling : Avoid breathing dust.  
Do not swallow.  
Do not get in eyes.  
Avoid prolonged or repeated contact with skin.  
Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment  
Keep container tightly closed.  
Already sensitised individuals, and those susceptible to asthma, allergies, chronic or recurrent respiratory disease, should consult their physician regarding working with respiratory irritants or sensitisers.  
Minimize dust generation and accumulation.  
Keep container closed when not in use.  
Keep away from heat and sources of ignition.  
Take precautionary measures against static discharges.  
Take care to prevent spills, waste and minimize release to the environment.

Avoidance of contact : Oxidizing agents

### Storage

Conditions for safe storage : Keep in properly labelled containers.  
Store locked up.  
Keep tightly closed.  
Keep in a cool, well-ventilated place.  
Store in accordance with the particular national regulations.

Materials to avoid : Do not store with the following product types:  
Strong oxidizing agents

Packaging material : Unsuitable material: None known.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Components with workplace control parameters

| Components         | CAS-No.     | Value type<br>(Form of exposure)    | Control parameters / Permissible concentration | Basis    |
|--------------------|-------------|-------------------------------------|------------------------------------------------|----------|
| Raltegravir        | 871038-72-1 | TWA                                 | 1000 (µg/m <sup>3</sup> ) (OEB 1)              | Internal |
| Cellulose          | 9004-34-6   | PC-TWA                              | 10 mg/m <sup>3</sup>                           | CN OEL   |
|                    |             | TWA                                 | 10 mg/m <sup>3</sup>                           | ACGIH    |
| Magnesium stearate | 557-04-0    | TWA (Inhalable particulate matter)  | 10 mg/m <sup>3</sup>                           | ACGIH    |
|                    |             | TWA (Respirable particulate matter) | 3 mg/m <sup>3</sup>                            | ACGIH    |

Engineering measures : Use feasible engineering controls to minimize exposure to compound.  
All engineering controls should be implemented by facility

design and operated in accordance with GMP principles to protect products, workers, and the environment.

### Personal protective equipment

|                          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : | If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.                                                                                                                                                                                                                                                                                                                            |
| Filter type              | : | Particulates type                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Eye/face protection      | : | Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.                                                                                                                                                                                        |
| Skin and body protection | : | Work uniform or laboratory coat.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Hand protection          | : |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Material                 | : | Chemical-resistant gloves                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Hygiene measures         | : | If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |   |                                                                                 |
|-----------------------------------------|---|---------------------------------------------------------------------------------|
| Appearance                              | : | powder                                                                          |
| Colour                                  | : | No data available                                                               |
| Odour                                   | : | No data available                                                               |
| Odour Threshold                         | : | No data available                                                               |
| pH                                      | : | No data available                                                               |
| Melting point/freezing point            | : | No data available                                                               |
| Initial boiling point and boiling range | : | No data available                                                               |
| Flash point                             | : | No data available                                                               |
| Evaporation rate                        | : | Not applicable                                                                  |
| Flammability (solid, gas)               | : | May form explosive dust-air mixture during processing, handling or other means. |

| Flow time                                        | : | No data available                                        |
| Explosive properties                             | : | Not explosive                                            |
| Oxidizing properties                             | : | The substance or mixture is not classified as oxidizing. |
| Molecular weight                                 | : | No data available                                        |
| Particle characteristics                         | : |                                                          |
| Particle size                                    | : | No data available                                        |

### 10. STABILITY AND REACTIVITY

|                                    |   |                                                                                                                            |
|------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : | Not classified as a reactivity hazard.                                                                                     |
| Chemical stability                 | : | Stable under normal conditions.                                                                                            |
| Possibility of hazardous reactions | : | May form explosive dust-air mixture during processing, handling or other means.<br>Can react with strong oxidizing agents. |
| Conditions to avoid                | : | Heat, flames and sparks.<br>Avoid dust formation.                                                                          |

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Raltegravir Adult Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 2025/05/09  |
| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

Incompatible materials : Oxidizing agents  
Hazardous decomposition products : No hazardous decomposition products are known.

### 11. TOXICOLOGICAL INFORMATION

Exposure routes : Inhalation  
Skin contact  
Ingestion  
Eye contact

#### Acute toxicity

Not classified based on available information.

#### Product:

Acute oral toxicity : Acute toxicity estimate: > 5,000 mg/kg  
Method: Calculation method

#### Components:

##### **Raltegravir:**

Acute oral toxicity : LD50 (Mouse, male and female): > 2,000 mg/kg

##### **Cellulose:**

Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg

Acute inhalation toxicity : LC50 (Rat): > 5.8 mg/l  
Exposure time: 4 h  
Test atmosphere: dust/mist

Acute dermal toxicity : LD50 (Rabbit): > 2,000 mg/kg

##### **Magnesium stearate:**

Acute oral toxicity : LD50 (Rat): > 2,000 mg/kg  
Method: OECD Test Guideline 423  
Assessment: The substance or mixture has no acute oral toxicity  
Remarks: Based on data from similar materials

Acute dermal toxicity : LD50 (Rabbit): > 2,000 mg/kg  
Remarks: Based on data from similar materials

#### **Skin corrosion/irritation**

Not classified based on available information.

#### Components:

##### **Raltegravir:**

Species : Rabbit  
Result : No skin irritation

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## Raltegravir Adult Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 2025/05/09  |
| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

### Magnesium stearate:

|         |                                        |
|---------|----------------------------------------|
| Species | : Rabbit                               |
| Result  | : No skin irritation                   |
| Remarks | : Based on data from similar materials |

### Serious eye damage/eye irritation

Causes serious eye damage.

### Components:

#### Raltegravir:

|         |                     |
|---------|---------------------|
| Species | : Bovine cornea     |
| Result  | : Severe irritation |

### Magnesium stearate:

|         |                                        |
|---------|----------------------------------------|
| Species | : Rabbit                               |
| Result  | : No eye irritation                    |
| Remarks | : Based on data from similar materials |

### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### Respiratory sensitisation

Not classified based on available information.

### Components:

#### Raltegravir:

|           |                                 |
|-----------|---------------------------------|
| Test Type | : Local lymph node assay (LLNA) |
| Species   | : Mouse                         |
| Result    | : negative                      |

### Magnesium stearate:

|                 |                                        |
|-----------------|----------------------------------------|
| Test Type       | : Maximisation Test                    |
| Exposure routes | : Skin contact                         |
| Species         | : Guinea pig                           |
| Method          | : OECD Test Guideline 406              |
| Result          | : negative                             |
| Remarks         | : Based on data from similar materials |

### Germ cell mutagenicity

Not classified based on available information.

### Components:

#### Raltegravir:

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| Genotoxicity in vitro | : Test Type: reverse mutation assay<br>Result: negative |
|-----------------------|---------------------------------------------------------|

| 8.0     | 2025/11/13     | 13226-00030 | Date of first issue: 2014/09/16 |

Target Organs : Stomach

### Cellulose:

Species : Rat  
NOAEL :  $\geq 9,000$  mg/kg  
Application Route : Ingestion  
Exposure time : 90 Days

### Magnesium stearate:

Species : Rat  
NOAEL :  $> 100$  mg/kg  
Application Route : Ingestion  
Exposure time : 90 Days  
Remarks : Based on data from similar materials

### Aspiration toxicity

Not classified based on available information.

### Experience with human exposure

### Components:

#### Raltegravir:

Ingestion : Symptoms: Nausea, Diarrhoea, Headache, Fever, Rash, Skin irritation

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity

### Components:

#### Raltegravir:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)):  $> 100$  mg/l  
Exposure time: 96 h  
Method: OECD Test Guideline 203  
  
LC50 (Cyprinodon variegatus (sheepshead minnow)):  $> 100$  mg/l  
Exposure time: 96 h  
Method: OECD Test Guideline 203  
  
Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)):  $> 100$  mg/l  
Exposure time: 48 h  
Method: OECD Test Guideline 202  
  
Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 66 mg/l  
Exposure time: 96 h  
Method: OECD Test Guideline 201  
  
NOEC (Pseudokirchneriella subcapitata (green algae)): 3.8 mg/l

|                    | Biodegradation: 50 %             |
|                    | Exposure time: 9 d               |
|                    | Method: OECD Test Guideline 302B |
| Stability in water | : Hydrolysis: < 10 %(5 d)        |
|                    | Method: OECD Test Guideline 111  |

##### **Cellulose:**

|                  |                                  |
|------------------|----------------------------------|
| Biodegradability | : Result: Readily biodegradable. |
|------------------|----------------------------------|

##### **Magnesium stearate:**

|                  |                                               |
|------------------|-----------------------------------------------|
| Biodegradability | : Result: Not biodegradable                   |
|                  | Remarks: Based on data from similar materials |

### Bioaccumulative potential

#### Components:

##### **Raltegravir:**

|                                        |                   |
|----------------------------------------|-------------------|
| Partition coefficient: n-octanol/water | : log Pow: -0.328 |
|----------------------------------------|-------------------|

##### **Magnesium stearate:**

|                                        |                |
|----------------------------------------|----------------|
| Partition coefficient: n-octanol/water | : log Pow: > 4 |
|----------------------------------------|----------------|

##### **Mobility in soil**

No data available

##### **Other adverse effects**

No data available

## 13. DISPOSAL CONSIDERATIONS

### **Disposal methods**

|                        |                                                              |
|------------------------|--------------------------------------------------------------|
| Waste from residues    | : Do not dispose of waste into sewer.                        |
|                        | Dispose of in accordance with local regulations.             |
| Contaminated packaging | : Empty containers should be taken to an approved waste han- |

### Special precautions for user

Not applicable

## 15. REGULATORY INFORMATION

### National regulatory information

#### Law on the Prevention and Control of Occupational Diseases

#### Regulations on Safety Management of Hazardous Chemicals

Catalogue of Hazardous Chemicals : This product is not listed in the catalogue of hazardous chemicals, but it meets the definition of hazardous chemicals and its principles of determination.

Identification of Major Hazard Installations for Hazardous Chemicals (GB 18218) : Not listed

Hazardous Chemicals for Priority Management under SAWS : Not listed

Catalogue of Specially Controlled Hazardous Chemicals : Not listed

List of Explosive Precursors : Not listed

#### Regulations on Labour Protection in Workplaces where Toxic Substances are Used

Catalogue of Highly Toxic Chemicals : Not listed

#### Regulation of Environmental Management on the First Import of Chemicals and the Import and Export of Toxic Chemicals

China Severely Restricted Toxic Chemicals for Import and Export : Not listed

#### Regulation on the Administration of Precursor Chemicals

Catalogue and Classification of Precursor Chemicals : Not listed

#### Yangtze River Protection Law

This product does not contain any dangerous chemicals prohibited for inland river transport.

#### Regulations of Ozone Depleting Substances Management

List of Controlled Ozone Depleting Substances Import and Export : Not listed

List of Controlled Ozone Depleting Substances : Not listed

#### Environmental Protection Law

List of Priority Controlled Chemicals : Not listed

List of Key Controlled New Pollutants : Not listed
