ECTION	2. HAZARDS IDENTIFIC	CAT	ION	
GHS	Classification			
	ific target organ toxicity - ated exposure (Oral)	:	Category 2 (Carc	dio-vascular system)
GHS	label elements			
Haza	rd pictograms	:		

Signal word	:	Warning
Hazard statements	:	H373 May cause damage to organs (Cardio-vascular system) through prolonged or repeated exposure if swallowed.
Precautionary statements	:	Prevention: P260 Do not breathe dust.
		Response:
		P314 Get medical advice/ attention if you feel unwell.
		Disposal: P501 Dispose of contents/ container to an approved waste disposal plant.

Version	Revision Date:	SDS Number:	Date of last issue: 30.09.2023
3.2	06.04.2024	5598514-00010	Date of first issue: 25.03.2020

Other hazards which do not result in classification

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form combustible dust concentrations in air during processing, handling or other means.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
Cellulose	9004-34-6	>= 30 -< 60
Vericiguat	1350653-20-1	>= 1 -< 10
Magnesium stearate	557-04-0	< 10

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact	:	Wash with water and soap. Get medical attention if symptoms occur.
In case of eye contact	:	If in eyes, rinse well with water. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and	:	May cause damage to organs through prolonged or repeated exposure if swallowed.
delayed		Contact with dust can cause mechanical irritation or drying of the skin.
Protection of first-aiders	:	Dust contact with the eyes can lead to mechanical irritation. First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire- fighting	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Exposure to combustion products may be a hazard to health.

Vericiguat Formulation

Version 3.2	Revision Date: 06.04.2024	SDS Number: 5598514-00010		Date of last issue: 30.09.2023 Date of first issue: 25.03.2020
Hazar ucts	dous combustion prod-		Carbon oxides Metal oxides	
Speci ods	Specific extinguishing meth- ods		Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to so.	
	al protective equipment efighters	:	Evacuate area. In the event of fire, wear self-contained breathing apparatu Use personal protective equipment.	
SECTION	6. ACCIDENTAL RELE	ASE	MEASURES	
tive e	nal precautions, protec- quipment and emer- procedures			ective equipment. ing advice (see section 7) and personal pro- recommendations (see section 8).
Enviro	Environmental precautions		Retain and dispos	akage or spillage if safe to do so. se of contaminated wash water. should be advised if significant spillages
	Methods and materials for containment and cleaning up		tainer for disposal Avoid dispersal of with compressed Dust deposits sho es, as these may leased into the atr Local or national r posal of this mate employed in the c mine which regula Sections 13 and 1	dust in the air (i.e., clearing dust surfaces

SECTION 7. HANDLING AND STORAGE

Technical measures	: Static electricity may accumulate and ignite suspended dust causing an explosion.
	Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.
Local/Total ventilation	: Use only with adequate ventilation.
Advice on safe handling	: Do not breathe dust.
-	Do not swallow.
	Avoid contact with eyes.
	Avoid prolonged or repeated contact with skin.
	Wash skin thoroughly after handling.

Ver 3.2	sion	Revision Date: 06.04.2024	SDS Number: 5598514-00010	Date of last issue: 30.09.2023 Date of first issue: 25.03.2020

When using do Wash contamin The effective o engineering co appropriate degindustrial hygie use of administrational system. 			
Conditions for safe storage Materials to avoid		 Keep in properly labelled containers. Store in accordance with the particular national regulations. Do not store with the following product types: Strong oxidizing agents 				

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Cellulose	9004-34-6	TWA	10 mg/m3	AU OEL
		TWA	10 mg/m3	ACGIH
Vericiguat	1350653-20- 1	TWA	4 µg/m3 (OEB 4)	Internal
		Wipe limit	40 µg/100 cm ²	Internal
Magnesium stearate	557-04-0	TWA	10 mg/m3	AU OEL
		TWA (Inhal- able particu- late matter)	10 mg/m3	ACGIH
		TWA (Res- pirable par- ticulate mat- ter)	3 mg/m3	ACGIH

Engineering measures

: Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., vacuum conveying from a closed system, packout head with inflatable seal from stationary container, ventilated enclosure, etc.).

Version 3.2	Revision Date: 06.04.2024		S Number: 98514-00010	Date of last issue: 30.09.2023 Date of first issue: 25.03.2020		
			design and opera protect products, Essentially no op	ontrols should be implemented by facility ated in accordance with GMP principles to workers, and the environment. en handling permitted. essing systems or containment technologies		
Perso	onal protective equipm	ent				
Fil	Respiratory protection Filter type Hand protection		If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Particulates type			
Ma	aterial	:	Chemical-resista	nt gloves		
	Remarks Eye protection		Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.			
Skin and body protection		:	Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, dis- posable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.

SECTION 10. STABILITY AND REACTIVITY

Reactivity Chemical stability Possibility of hazardous reac- tions	:	Not classified as a reactivity hazard. Stable under normal conditions. May form combustible dust concentrations in air during pro- cessing, handling or other means. Can react with strong oxidizing agents.
Conditions to avoid	:	Heat, flames and sparks. Avoid dust formation.
Incompatible materials Hazardous decomposition		Oxidizing agents No hazardous decomposition products are known.

Serious eye damage/eye irritation

Not classified based on available information.

Components:

Magnesium stearate:

Species :	Rabbit
	No eye irritation
Remarks :	Based on data from similar materials

Respiratory or skin sensitisation

Skin sensitisation

Not classified based on available information.

Respiratory sensitisation

Not classified based on available information.

Components:

Magnesium stearate:

Test Type :	Maximisation Test
Exposure routes :	Skin contact
Species :	Guinea pig
Method :	OECD Test Guideline 406
Result :	negative
Remarks :	Based on data from similar materials

Chronic toxicity

Germ cell mutagenicity

Not classified based on available information.

Components:

Cellulose:	
Genotoxicity in vitro :	Test Type: Bacterial reverse mutation assay (AMES) Result: negative
	Test Type: In vitro mammalian cell gene mutation test Result: negative
Genotoxicity in vivo :	Test Type: Mammalian erythrocyte micronucleus test (in vivo cytogenetic assay) Species: Mouse Application Route: Ingestion Result: negative
Vericiguat:	
Genotoxicity in vitro :	Test Type: Bacterial reverse mutation assay (AMES) Result: negative
